Schedule VII	Requirements relating to devices for the electronic receipt of requests to participate and tenders

SUBSIDIARY LEGISLATION 601.07**PUBLIC PROCUREMENT OF CONTRACTING
AUTHORITIES OR ENTITIES IN THE FIELDS OF
DEFENCE AND SECURITY REGULATIONS**

21st October, 2011

*LEGAL NOTICE 411 of 2011, as amended by Legal Notices 106 of 2012
and 55 of 2014.***PART I****Definitions, Scope and General Principles**

- Citation. **1.** The title of these regulations is the Public Procurement of Contracting Authorities or Entities in the fields of Defence and Security Regulations.
- Interpretation. **2.** For the purposes of these regulations, and unless the context otherwise requires:
- "candidate" means an economic operator which has sought an invitation to take part in a restricted or negotiated procedure or a competitive dialogue;
- "central purchasing body" means the Department of Contracts or a European public body, which:
- (a) acquires supplies and, or services intended for contracting authorities or entities, or,
 - (b) awards contracts or concludes framework agreements for works, supplies or services intended for contracting authorities or entities;
- "civil purchases" means contracts not subject to regulation 3 covering the procurement of non-military products, works or services for logistical purposes and concluded in accordance with the conditions specified in regulation 18;
- "classified information" means any information or material, regardless of the form, nature or mode of transmission thereof, to which a certain level of security classification or protection has been attributed, and which, in the interests of national security and in accordance with the laws, regulations or administrative provisions in force in the Member State concerned, requires protection against any misappropriation, destruction, removal, disclosure, loss or access by any unauthorised individual, or any other type of compromise;
- "Commission" means the Commission of the European Union;
- "common procurement vocabulary (CPV)" means the reference nomenclature applicable to contracts awarded by contracting authorities, as adopted by Regulation (EC) No 2195/2002;

"competitive dialogue" means a procedure in which any economic operator may request to participate and whereby the contracting authority conducts a dialogue with the candidates admitted to that procedure, with the aim of developing one or more suitable alternatives capable of meeting its requirements, and on the basis of which the candidates chosen are invited to tender. For the purpose of recourse to the procedure, a public contract is considered to be "particularly complex" where the contracting authorities are not objectively able to define the technical means in accordance with regulation 2 of the Public Procurement Regulations;

S.L. 601.03

"contracting authorities" means contracting authorities as referred to in regulation 2 of the Public Procurement Regulations;

S.L. 601.03

"contracting entities" means contracting entities as referred to in regulation 2(2) of the Public Procurement of Entities Operating in the Water, Energy, Transport and Postal Services Sectors Regulations;

S.L. 601.05

"contractor" means a natural or legal person or public entity or group of such persons and, or bodies which offers on the market the execution of works and, or a work;

"crisis" means any situation in a Member State or third country in which a harmful event has occurred which clearly exceeds the dimensions of harmful events in everyday life and which substantially endangers or restricts the life and health of people, or has a substantial impact on property values, or requires measures in order to supply the population with necessities; a crisis shall also be deemed to have arisen if the occurrence of such a harmful event is deemed to be impending; armed conflicts and wars shall be regarded as crises for the purposes of these regulations;

"Director" means the Head of the Department of Contracts;

"economic operator" means a contractor, supplier or service provider;

"electronic auction" means a repetitive process involving an electronic device for the presentation of new prices, revised downwards, and, or new values concerning certain elements of tenders, which occurs after an initial full evaluation of the tenders, enabling them to be ranked using automatic evaluation methods. Certain service contracts and certain works contracts having as their subject-matter intellectual performances, such as the design of works, may not be the object of electronic auctions;

"electronic means" means any means using electronic equipment for the processing (including digital compression) and storage of data which is transmitted, conveyed and received by wire, by radio, by optical means or by other electromagnetic means;

"European Union" means the European Union as referred to in the Treaty;

"Framework agreement" means an agreement between one or more contracting authorities or entities and one or more economic operators, the purpose of which is to establish the terms governing contracts to be awarded during a given period, in particular with

regard to price and, where appropriate, the quantity envisaged;

"Government" means the State, regional or local government of a Member State or third country;

"life cycle" means all the possible successive stages of a product, that is research and development, industrial development, production, repair, modernisation, modification, maintenance, logistics, training, testing, withdrawal and disposal;

"Member State" means a member state of the European Union;

"military equipment" means equipment specifically designed or adapted for military purposes and intended for use as an arm, munitions or war material;

"negotiated procedures" means procedures in which the contracting authority or entity invites the economic operators of its choice and negotiates the terms of the contract with one or more of these;

"public contract" means a contract for pecuniary interest concluded in writing between one or more economic operators and one or more contracting authorities and having as its object the execution of works, the supply of products or the provision of services;

"related undertaking" means any undertaking over which the successful tenderer can exert a dominant influence, whether directly or indirectly, or any undertaking which can exert a dominant influence on the successful tenderer or which, as the successful tenderer, is subject to the dominant influence of another undertaking as a result of ownership, financial participation or the rules which govern it. A dominant influence on the part of the undertaking is presumed when, directly or indirectly in relation to another undertaking, it:

- holds a majority of the undertaking's subscribed capital,
- controls a majority of the votes attached to the shares issued by the undertaking, or
- is entitled to appoint more than half of the undertaking's administrative, management or supervisory bodies;

"research and development" means all activities comprising fundamental research, applied research and experimental development, where the latter may include the realisation of technological demonstrators, that is, devices that demonstrate the performance of a new concept or a new technology in a relevant or representative environment;

"restricted procedures" means procedures in which any economic operator may ask to participate and whereby only those economic operators invited by the contracting authority or entity may submit a tender;

"sensitive equipment", "sensitive works" and "sensitive services" means equipment, works and services for security purposes,

involving, requiring and, or containing classified information;

"service contracts" means contracts other than works or supply contracts having as their object the provision of services. A contract having as its object both products and services shall be considered to be a "public service contract" if the value of the services in question exceeds that of the products covered by the contract. A contract having as its object services and including activities mentioned in Division 45 of the CPV that are only incidental to the principal object of the contract shall be considered to be a public service contract;

"service provider" means a natural or legal person or public entity or group of such persons and, or bodies which offers services on the market;

"subcontract" means a public contract for pecuniary interest concluded in writing between a successful tenderer for a contract and one or more economic operators for the purposes of carrying out that contract and having as its object works, supplies of products or the performance of services;

"supplier" means a natural or legal person or public entity or group of such persons and, or bodies which offers products on the market;

"supply contract" means a public contract other than a public works contract having as its object the purchase, lease, rental or hire purchase, with or without option to buy, of products. A public contract having as its object the supply of products and which also covers, as an incidental matter, siting and installation, shall be considered to be a public supply contract;

"tenderer" means an economic operator who has submitted a tender;

"Treaty" has the same meaning as is assigned to it by the European Union Act;

Cap. 460.

"work" means the outcome of building or civil engineering works taken as a whole which is sufficient of itself to fulfil an economic and technical function;

"works contract" means contracts having as their object either the execution, or both the design and execution, of works related to one of the activities mentioned in Division 45 of the CPV, or a work, or the realisation, by whatever means, of a work corresponding to the requirements specified by the contracting authority;

"written" or "in writing" means any expression consisting of words or figures which can be read, reproduced and subsequently communicated. It may include information which is transmitted and stored by electronic means.

3. Subject to Articles 30, 45, 46, 55 and 296 of the Treaty, these regulations shall apply to contracts awarded in the fields of defence and security for:

Scope.

- (a) the supply of military equipment, including any parts, components and, or sub-assemblies thereof;

- (b) the supply of sensitive equipment, including any parts, components and, or subassemblies thereof;
- (c) works, supplies and services directly related to the equipment referred to in paragraphs (a) and (b) for any and all elements of its life cycle;
- (d) works and services for specifically military purposes or sensitive works and sensitive services.

Mixed contracts.

S.L. 601.03
S.L.601.05

4. (1) A contract having as its object works, supplies or services falling within the scope of these regulations and partly within the scope of the Public Procurement Regulations, or the Public Procurement of Entities Operating in the Water, Energy, Transport and Postal Services Sectors Regulations, shall be awarded in accordance with these regulations, provided that the award of a single contract is justified for objective reasons.

S.L. 601.03
S.L.601.05

(2) The award of a contract having as its object works, supplies or services falling partly within the scope of these regulations, with the other part not being subject to either these regulations, or to the Public Procurement Regulations, or the Public Procurement of Entities Operating in the Water, Energy, Transport and Postal Services Sectors Regulations, shall not be subject to these regulations, provided that the award of a single contract is justified for objective reasons.

S.L. 601.03
S.L.601.05

(3) The decision to award a single contract may not, however, be taken for the purpose of excluding contracts from the application of these regulations or of the Public Procurement Regulations, or the Public Procurement of Entities Operating in the Water, Energy, Transport and Postal Services Sectors Regulations.

Procurement principles.

5. Contracting authorities or entities shall treat economic operators equally and in a non-discriminatory manner and shall act in a transparent way.

PART II

Rules on Contracts

Chapter 1

General Provisions

Economic operators.

6. (1) It shall not be lawful that candidates or tenderers which, under the law of the Member State in which they are established, are entitled to provide the relevant service, shall be rejected solely on the ground that they would be required to be either natural or legal persons:

Provided that in the case of service and works contracts as well as supply contracts covering in addition services and, or siting and installation operations, legal persons may be required to indicate in the tender or the request to participate the names and relevant professional qualifications of the staff to be responsible for the performance of the contract in question.

(2) Groups of economic operators may submit tenders or put themselves forward as candidates. In order to submit a tender or a

request to participate, these groups may not be required by the contracting authorities or entities to assume a specific legal form; however, the group selected may be required to do so when it has been awarded the contract, to the extent that this change is necessary for the satisfactory performance of the contract.

7. Without prejudice to the provisions of these regulations, in particular those concerning the obligations relating to the advertising of awarded contracts and to the information to candidates and tenderers as set out in regulations 33(3) and 36, and in accordance with other laws and regulations, in particular legislation regarding access to information, the contracting authority or entity, subject to contractually acquired rights, shall not disclose information forwarded to it by economic operators which such operators have designated as confidential; such information includes, in particular, technical or trade secrets and the confidential aspects of tenders.

Confidentiality obligations of contracting authorities or entities.

8. Contracting authorities or entities may impose on economic operators requirements aimed at protecting the classified information they communicate throughout the tendering and contracting procedure. They may also request these economic operators to ensure compliance with such requirements by their subcontractors.

Protection of classified information.

Chapter II

Thresholds, central purchasing bodies and exclusion provisions

Section I

Thresholds

9. (1) These regulations shall apply to contracts which have a value, excluding value added tax (VAT), estimated to be no less than the following thresholds:

- (a) EUR 134,000 for supply and service contracts;
- (b) EUR 5,186,000 for works contracts.

Threshold amount for contracts.
Amended by:
L.N. 106 of 2012;
L.N. 55 of 2014.

(2) Where the estimated value does not exceed two thousand and five hundred euro (€2,500), the equipment, stores, works or services may be procured departmentally either after obtaining quotations or direct from the open market at the discretion of the Head of Department taking into consideration the amount involved, the urgency attached to the procurement and restrictions of choice and availability.

(3) Where the estimated value exceeds two thousand and five hundred euro (€2,500) but does not exceed forty thousand euro (€40,000), the equipment, stores, works or services may be procured departmentally after a call for tenders, or after obtaining quotations, or direct from the open market, taking into consideration the amount involved, the urgency attached to the procurement and restrictions of choice and availability, and shall be approved by the Minister responsible for that department, or by such member of the department as may be authorised by that Minister.

(4) Where the estimated value exceeds forty thousand euro (€40,000) but not one hundred and twenty-five thousand euro (€125,000), the equipment, stores, works or services may be procured after a departmental call for tenders or after publishing a call for quotations in the Gazette. The tenders and quotations shall be opened in public by three senior officers of the said department and the prices quoted shall also be made public:

Provided that the Minister may allow that variations and the imposition or remission of penalties in respect of such contracts be approved by the Minister charged with responsibility for that department, who may delegate his authority in writing to the Parliamentary Secretary, the Permanent Secretary or the Head of Department.

Methods for calculating the estimated value of contracts and of framework agreements.

10. (1) The calculation of the estimated value of a contract shall be based on the total amount payable, net of VAT, as estimated by the contracting authority or entity. This calculation shall take account of the estimated total amount, including any form of option, any renewals of the contract and prizes or payments provided to candidates or tenderers where applicable.

(2) This estimate must be valid at the moment at which the contract notice is sent, as provided for in regulation 33(2), or, in cases where such notice is not required, at the moment at which the contracting authority or entity commences the contract award procedure.

(3) No works project or proposed purchase of a certain quantity of supplies and, or services may be partitioned to create essentially identical separate partial contracts or otherwise subdivided to prevent its coming within the scope of these regulations.

(4) With regard to works contracts, the calculation of the estimated value shall take account of both the cost of the works and the total estimated value of the supplies necessary for executing the works and placed at the contractor's disposal by the contracting authorities or entities.

(5) Where a proposed work or purchase of services may result in contracts being awarded at the same time in the form of separate lots, account shall be taken of the total estimated value of all such lots.

(6) Where the aggregate value of the lots is equal to or exceeds the threshold laid down in regulation 9, these regulations shall apply to the awarding of each lot:

Provided that, the contracting authorities or entities may waive such application in respect of lots the estimated value of which, net of VAT, is less than EUR 80,000 for services or EUR 1,000,000 for works, provided that the aggregate value of those lots does not exceed 20% of the aggregate value of the lots as a whole.

(7) Where a proposal for the acquisition of similar supplies may result in contracts being awarded at the same time in the form of separate lots, account shall be taken of the total estimated value of all such lots when applying the provisions of regulation 9(1)(a)

and (b).

(8) Where the aggregate value of the lots is equal to or exceeds the threshold laid down in regulation 9, these regulations shall apply to the awarding of each lot:

Provided that, the contracting authorities or entities may waive such application in respect of lots the estimated value of which, net of VAT, is less than EUR 80,000, provided that the aggregate cost of those lots does not exceed 20% of the aggregate value of the lots as a whole.

(9) With regard to supply contracts relating to the leasing, hire, rental or hire-purchase of products, the value to be taken as a basis for calculating the estimated contract value shall be as follows:

- (a) in the case of fixed-term contracts, where that term is less than or equal to twelve months, the total estimated value for the term of the contract or, where the term of the contract is greater than twelve months, the total value, including the estimated residual value;
- (b) in the case of contracts without a fixed term or the term of which cannot be defined, the monthly value multiplied by 48.

(10) In the case of supply or service contracts which are regular in nature or which are intended to be renewed within a given period, the calculation of the estimated contract value shall be based on the following:

- (a) either the total actual value of the successive contracts of the same type awarded during the preceding twelve months or financial year, adjusted, if possible, to take account of the changes in quantity or value which could occur in the course of the twelve months following the initial contract; or
- (b) the total estimated value of the successive contracts awarded during the twelve months following the first delivery, or during the financial year if that is longer than twelve months:

Provided that the choice of method used to calculate the estimated value of a contract may not be made with the intention of excluding it from the scope of these regulations.

(11) With regard to service contracts, the value to be taken as a basis for calculating the estimated contract value shall, where appropriate, be the following:

- (a) for the following services:
 - (i) insurance services: the premium payable and other forms of remuneration;
 - (ii) design contracts: fees, commission payable and other forms of remuneration;
- (b) for service contracts which do not indicate a total price:
 - (i) in the case of fixed-term contracts, where that

term is less than or equal to forty-eight months: the total value for their full term;

- (ii) in the case of contracts without a fixed term or with a term greater than forty-eight months: the monthly value multiplied by forty-eight.

(12) With regard to framework agreements, the estimated value to be taken into consideration shall be the maximum estimated value, net of VAT, of all the contracts envisaged for the total term of the agreement.

Section 2

Central purchasing bodies

Contracts and framework agreements awarded by central purchasing bodies.

11. (1) Contracting authorities or entities may purchase works, supplies and or services from or through a central purchasing body.

(2) Contracting authorities or entities which purchase works, supplies and, or services from or through a central purchasing body in the cases set out in the definition of "central purchasing body" in regulation 2 shall be deemed to have complied with these regulations insofar as:

- (a) the central purchasing body has complied with them, or
- (b) when the central purchasing body is not a contracting authority or entity, the contract award rules applied by it are compliant with all the provisions of these regulations and the contracts awarded can be subject to efficient remedies comparable to those provided for in these regulations.

Section 3

Excluded contracts

Use of exclusions.

12. None of the rules, procedures, programmes, agreements, arrangements or contracts referred to in this section may be used for the purpose of circumventing the provisions of these regulations.

Contracts awarded pursuant to international rules.

13. These regulations shall not apply to contracts governed by:

- (a) specific procedural rules pursuant to an international agreement or arrangement concluded between one or more Member States and one or more third countries;
- (b) specific procedural rules pursuant to a concluded international agreement or arrangement relating to the stationing of troops and concerning the undertakings of a Member State or a third country;
- (c) specific procedural rules of an international organisation purchasing for its purposes, or to contracts which must be awarded by a Member State in accordance with those rules.

14. These regulations shall not apply to the following: Specific
exclusions.
- (a) contracts for which the application of these regulations would oblige the competent authorities to supply information the disclosure of which it considers contrary to the essential interests of the security of the country;
 - (b) contracts for the purposes of intelligence activities;
 - (c) contracts awarded in the framework of a cooperative programme based on research and development, conducted jointly by Malta and at least another Member State for the development of a new product and, where applicable, the later phases of all or part of the life-cycle of this product. Upon the conclusion of such a cooperative programme between Malta and other Member States only, Member States shall indicate to the Commission the share of research and development expenditure relative to the overall cost of the programme, the cost-sharing agreement as well as the intended share of purchases per Member State, if any;
 - (d) contracts awarded in a third country, including for civil purchases, carried out when forces are deployed outside the territory of the European Union where operational needs require them to be concluded with economic operators located in the area of operations;
 - (e) service contracts for the acquisition or rental, under whatever financial arrangements, of land, existing buildings or other immovable property, or concerning rights in respect thereof;
 - (f) contracts awarded by the Maltese government to another government relating to:
 - (i) the supply of military equipment or sensitive equipment,
 - (ii) works and services directly linked to such equipment, or
 - (iii) works and services specifically for military purposes, or sensitive works and sensitive services;
 - (g) arbitration and conciliation services;
 - (h) financial services, with the exception of insurance services;
 - (i) employment contracts;
 - (j) research and development services other than those where the benefits accrue exclusively to the contracting authority or entity for its use in the conduct of its own affairs, on condition that the service provided is wholly remunerated by the contracting authority or entity.

Section 4

Special arrangements

Reserved
contracts.

15. The contracting authority or entity may reserve the right to participate in contract award procedures to sheltered workshops or provide for such contracts to be performed in the context of sheltered employment programmes where most of the employees concerned are handicapped persons who, by reason of the nature or the seriousness of their disabilities, cannot carry on occupations under normal conditions. The contract notice shall make reference to this provision.

Chapter III

Arrangements for service contracts

Service contracts
listed in Schedule I

16. Contracts which have as their object services covered by regulation 3 that are listed in Schedule I shall be awarded in accordance with regulations 19 to 55.

Service contracts
listed in Schedule
II

17. Contracts which have as their object services covered by regulation 3 that are listed in Schedule II shall be subject solely to regulations 19 and 31(3).

Mixed contracts
including services
listed in Schedules
I and II.

18. Contracts which have as their object services covered by regulation 3 that are listed both in Schedule I and in Schedule II shall be awarded in accordance with regulations 19 to 55 where the value of the services listed in Schedule I is greater than the value of the services listed in Schedule II. In other cases, contracts shall be awarded in accordance with regulations 19 and 31(3).

Chapter IV

Specific rules governing contract documentation

Technical
specifications.

19. (1) For the purposes of this regulation, the following definitions shall apply:

"common technical specification" means a technical specification laid down in accordance with a procedure recognised by Member States which has been published in the Official Journal of the European Union;

"defence standard" means a technical specification the observance of which is not compulsory and which is approved by a standardisation body specialising in the production of technical specifications for repeated or continuous application in the field of defence;

"European technical approval" means a favourable technical assessment of the fitness for use of a product for a specific purpose, based on fulfilment of the essential requirements for building works, by means of the inherent characteristics of the product and the defined conditions of application and use. European technical approvals are issued by an approval body designated for this purpose by the Member State;

"standard" means a technical specification approved by a recognised standardisation body for repeated or continuous application, compliance with which is not compulsory, from one of

the following categories:

- (a) international standard: a standard adopted by an international standards organisation and made available to the general public,
- (b) European standard: a standard adopted by a European standardisation body and made available to the general public,
- (c) national standard: a standard adopted by a national standards organisation and made available to the general public;

"technical reference" means any product produced by European standardisation bodies, other than official standards, according to procedures adapted to developments in market needs;

"technical specifications" means:

- (a) in the case of works contracts: the totality of the technical prescriptions contained in particular in the tender documents, defining the characteristics required of a material, product or supply, which permits a material, a product or a supply to be described in a manner such that it fulfils the use for which it is intended by the contracting authority or entity. These characteristics shall include levels of environmental performance, design for all requirements (including accessibility for people with disabilities) and conformity assessment, performance, safety or dimensions, including the procedures concerning quality assurance, terminology, symbols, testing and test methods, packaging, marking and labelling and production processes and methods. They shall also include rules relating to design and costing, the test, inspection and acceptance conditions for works and techniques or methods of construction and all other technical conditions which the contracting authority or entity is in a position to prescribe, under general or specific regulations, in relation to the finished works and to the materials or parts which they involve;
- (b) in the case of supply or service contracts: a specification in a document defining the required characteristics of a product or service, such as quality and environmental performance levels, design for all requirements (including accessibility for people with disabilities), and conformity assessment, performance, use of the product, its safety or dimensions, including requirements relevant to the product as regards the name under which the product is sold, terminology, symbols, testing and test methods, packaging, marking and labelling, user instructions, production methods and procedures, as well as conformity assessment procedures;

(2) The technical specifications as defined in this regulation shall be set out in the contract documentation (contract notices, contract

documents, descriptive documents or supporting documents).

(3) Technical specifications shall afford equal access for tenderers and shall not have the effect of creating unjustified obstacles to the opening up of procurement to competition.

(4) Without prejudice to either compulsory national technical rules (including those related to product safety) or the technical requirements to be met by Malta under international standardisation agreements in order to guarantee the interoperability required by those agreements, and provided they are compatible with Community law, technical specifications shall be drawn up:

(a) either by reference to technical specifications defined in this regulation and, in order of preference, to:

- national civil standards transposing European standards,
- European technical approvals,
- common civil technical specifications,
- national civil standards transposing international standards,
- other international civil standards,
- other technical reference systems established by the European standardisation bodies, or, where these do not exist, other national civil standards, national technical approvals or national technical specifications relating to the design, calculation and execution of the works and use of the products,
- civil technical specifications stemming from industry and widely recognised by it, or,
- the national "defence standards" defined in this regulation and defence material specifications similar to those standards;

and every reference shall be followed by the expression "or equivalent"; or

(b) in terms of performance or functional requirements; the latter may include environmental characteristics:

Provided that such parameters must be sufficiently precise to allow tenderers to determine the subject-matter of the contract and to allow contracting authorities or entities to award the contract; or

(c) in terms of performance or functional requirements as mentioned in paragraph (b), with reference to the specifications mentioned in paragraph (a) as a means of presuming conformity with such performance or functional requirements; or

(d) by referring to the specifications mentioned in paragraph (a) for certain characteristics, and by referring to the performance or functional requirements mentioned in paragraph (b) for other

characteristics.

(5) Where a contracting authority or entity makes use of the option of referring to the specifications mentioned in sub-regulation (4)(a), it can not reject a tender on the grounds that the products and services tendered for do not comply with the specifications to which it has referred, once the tenderer proves in its tender to the satisfaction of the contracting authority or entity, by whatever appropriate means, that the solutions which it proposes satisfy in an equivalent manner the requirements defined by the technical specifications.

For the purpose of this regulation an appropriate means might be constituted by a technical dossier from the manufacturer or a test report from a recognised body.

(6) Where a contracting authority or entity uses the option laid down in sub-regulation (4) to prescribe performance-related or functional requirements, it may not reject a tender for works, products or services which comply with a national standard transposing a European standard, with a European technical approval, a common technical specification, an international standard or a technical reference system established by a European standardisation body, if these specifications address the performance or functional requirements which it has laid down.

In its tender, the tenderer must prove to the satisfaction of the contracting authority or entity and by any appropriate means that the work, product or service in compliance with the standard meets the performance or functional requirements of the contracting authority or entity.

(7) Where contracting authorities or entities lay down environmental characteristics in terms of performance or functional requirements as referred to in sub-regulation (4)(b), they may use the detailed specifications, or, if necessary, parts thereof, as defined by European or (multi-) national eco-labels, or by any other eco-label, provided that:

- (a) those specifications are appropriate as a means of defining the characteristics of the supplies or services that are the object of the contract,
- (b) the requirements for the label are drawn up on the basis of scientific information,
- (c) the eco-labels are adopted using a procedure in which all stakeholders, such as government bodies, consumers, manufacturers, distributors and environmental organisations, can participate, and
- (d) they are accessible to all interested parties.

Contracting authorities or entities may indicate that the products and services bearing the eco-label are presumed to comply with the technical specifications laid down in the contract documents; they must accept any other appropriate means of proof.

(8) "Recognised bodies", within the meaning of this regulation, are test and calibration laboratories, and certification and

inspection bodies which comply with applicable European standards. Contracting authorities or entities shall accept certificates from recognised bodies established in other Member States.

(9) Unless justified by the subject-matter of the contract, technical specifications shall not refer to a specific make or source, or a particular process, or to trade marks, patents, types or a specific origin or production with the effect of favouring or eliminating certain undertakings or certain products. Such reference shall be permitted on an exceptional basis, where a sufficiently precise and intelligible description of the subject-matter of the contract pursuant to sub-regulations (4) and (5) is not possible; such reference shall be accompanied by the words "or equivalent".

Variants.

20. (1) Where the criterion for award is that of the most economically advantageous tender, contracting authorities or entities may authorise tenderers to submit variants.

(2) Contracting authorities or entities shall indicate in the contract notice whether or not they authorise variants. Variants shall not be authorised without this indication.

(3) (a) Contracting authorities or entities authorising variants shall state in the tender specifications the minimum requirements to be met by the variants and any specific requirements for their presentation.

(b) Only variants meeting the minimum requirements laid down by the contracting authorities or entities shall be taken into consideration.

(4) In procedures for awarding supply or service contracts, contracting authorities or entities which have authorised variants may not reject a variant on the sole ground that it would, if successful, lead either to a service contract rather than a supply contract, or to a supply contract rather than a service contract.

Conditions for performance of contracts.

21. Contracting authorities or entities may lay down special conditions relating to the performance of a contract, provided that these are compatible with Community law and are indicated in the contract documentation (contract notices, contract documents, descriptive documents or supporting documents). These conditions may, in particular, concern subcontracting or seek to ensure the security of classified information and the security of supply required by the contracting authority or entity, in accordance with regulations 22, 23 and 24, or take environmental or social considerations into account.

Subcontracting.

22. (1) The successful tenderer shall be free to select its subcontractors for all subcontracts that are not covered by the requirement referred to in sub-regulations (3) and (4), and shall in particular not be required to discriminate against potential subcontractors on grounds of nationality.

(2) The contracting authority or entity may ask or may be required by a Member State to ask the tenderer:

- (a) to indicate in its tender any share of the contract it may intend to subcontract to third parties and any proposed subcontractor, as well as the subject-matter of the subcontracts for which they are proposed; and, or,
- (b) to indicate any change occurring at the level of subcontractors during the execution of the contract.

(3) The contracting authority or entity may oblige or may be required by a Member State to oblige the successful tenderer to apply the provisions set out in Part III to all or certain subcontracts which the successful tenderer intends to award to third parties.

(4) The contracting authority or entity may ask or be required to ask the successful tenderer to subcontract to third parties a share of the contract. The contracting authority or entity that imposes such subcontracting shall express this minimal percentage in the form of a range of values, comprising a minimum and maximum percentage. The maximum percentage may not exceed 30% of the value of the contract. Such a range shall be proportionate to the object and value of the contract and the nature of the industry sector involved, including the level of competition in that market and the relevant technical capabilities of the industrial base.

(5) Any percentage of subcontracting falling within the range of values indicated by the contracting authority or entity shall be considered to fulfil the subcontracting requirement set out in sub-regulation (4).

(6) Tenderers may propose to subcontract a share of the total value which is above the range required by the contracting authority or entity.

(7) The contracting authority or entity shall ask tenderers to specify in their tender which part or parts of their offer they intend to subcontract to fulfil the requirement referred to in sub-regulation (1).

(8) The contracting authority or entity may ask or may be required by a Member State to ask tenderers to specify which part or parts of their offer they intend to subcontract beyond the required percentage, as well as the subcontractors they have already identified.

(9) The successful tenderer shall award subcontracts corresponding to the percentage which the contracting authority or entity requires it to subcontract in accordance with the provisions of Part III.

(10) It shall be lawful for the contracting authority or entity to reject the subcontractors selected by the tenderer at the stage of the award procedure of the main contract or by the successful tenderer during the performance of the contract; such rejection may only be based on criteria applied for the selection of the tenderers for the main contract. However if the contracting authority or entity rejects a subcontractor, it must produce a written justification to the tenderer or the successful tenderer, setting out why it considers that the subcontractor does not meet the criteria.

(11) Requirements referred to in sub-regulations (2) to (5) shall

be indicated in the contract notices.

(12) Sub-regulations (1) to (5) shall be without prejudice to the question of the principal economic operator's liability.

Security
information.

23. When contracts involve, require and, or contain classified information, the contracting authority or entity shall specify in the contract documentation (contract notices, contract documents, descriptive documents or supporting documents) the measures and requirements necessary to ensure the security of such information at the requisite level. The contracting authority or entity may require that the tender contain, *inter alia*, the following particulars:

- (a) a commitment from the tenderer and the subcontractors already identified to appropriately safeguard the confidentiality of all classified information in their possession or coming to their notice throughout the duration of the contract and after termination or conclusion of the contract, in accordance with the relevant laws, regulations and administrative provisions;
- (b) a commitment from the tenderer to obtain the commitment provided in paragraph (a) from other subcontractors to which it will subcontract during the execution of the contract;
- (c) sufficient information on subcontractors already identified to enable the contracting authority or entity to determine that each of them possesses the capabilities required to appropriately safeguard the confidentiality of the classified information to which they have access or which they are required to produce when carrying out their subcontracting activities;
- (d) a commitment from the tenderer to provide the information required under paragraph (c) on any new subcontractor before awarding a subcontract:

Provided that measures and requirements referred to in paragraph (b) have to comply with national provisions on security clearance.

Security of supply.

24. (1) The contracting authority or entity shall specify in the contract documentation (contract notices, contract documents, descriptive documents or supporting documents) its security of supply requirements. The contracting authority or entity may require that the tender contain, *inter alia*, the following particulars:

- (a) certification or documentation demonstrating to the satisfaction of the contracting authority or entity that the tenderer will be able to honour its obligations regarding the export, transfer and transit of goods associated with the contract, including any supporting documentation received from the Member State(s) concerned;
- (b) the indication of any restriction on the contracting authority or entity regarding disclosure, transfer or use

- of the products and services or any result of those products and services, which would result from export control or security arrangements;
- (c) certification or documentation demonstrating that the organisation and location of the tenderer's supply chain will allow it to comply with the requirements of the contracting authority or entity concerning security of supply set out in the contract documents, and a commitment to ensure that possible changes in its supply chain during the execution of the contract will not affect adversely compliance with these requirements;
 - (d) a commitment from the tenderer to establish and, or maintain the capacity required to meet additional needs required by the contracting authority or entity as a result of a crisis, according to terms and conditions to be agreed;
 - (e) any supporting documentation received from the tenderer's national authorities regarding the fulfilment of additional needs required by the contracting authority or entity as a result of a crisis;
 - (f) a commitment from the tenderer to carry out the maintenance, modernisation or adaptation of the supplies covered by the contract;
 - (g) a commitment from the tenderer to inform the contracting authority or entity in due time of any change in its organisation, supply chain or industrial strategy that may affect its obligations to that authority or entity;
 - (h) a commitment from the tenderer to provide the contracting authority or entity, according to terms and conditions to be agreed, with all specific means necessary for the production of spare parts, components, assemblies and special testing equipment, including technical drawings, licenses and instructions for use, in the event that it is no longer able to provide these supplies.

(2) A tenderer may not be required to obtain a commitment from a Member State that would prejudice that Member State's freedom to apply, in accordance with relevant international or Community law, its national export, transfer or transit licensing criteria in the circumstances prevailing at the time of such a licensing decision.

25. (1) The contracting authority or entity may state in the contract documents, or be obliged by the Director to do so, the body or bodies from which a candidate or tenderer may obtain the appropriate information on the obligations relating to taxes, to environmental protection, to the employment protection provisions and to the working conditions which are in force in Malta, or the region or locality in which the services are to be provided and which shall be applicable to the services provided during the

Obligations relating to taxes, environmental protection, employment protection provisions and working conditions.

performance of the contract.

(2) A contracting authority which supplies the information referred to in sub-regulation (1) shall request the tenderers or candidates in the contract award procedure to indicate that they have taken account, when drawing up their tender, of the obligations relating to employment protection provisions and the working conditions which are in force in the place where the service is to be provided.

(3) Sub-regulation (1) shall be without prejudice to the application of the provisions of regulation 50 concerning the examination of abnormally low tenders.

Chapter V

Procedures

Procedures to be applied.

26. (1) In awarding contracts, contracting authorities or entities shall apply the national procedures adjusted for the purposes of these regulations.

(2) It shall be lawful for contracting authorities or entities for the purpose of awarding the contract to apply the restricted procedure or the negotiated procedure with publication of a contract notice.

(3) Under the circumstances referred to in regulation 28, contracting authorities or entities may award their contracts by means of a competitive dialogue.

(4) In the specific cases and circumstances referred to expressly in regulation 29, the contracting authorities or entities may apply a negotiated procedure without publication of a contract notice.

Negotiated procedure with publication of a contract notice.

27. (1) In negotiated procedures with publication of a contract notice, contracting authorities or entities shall negotiate with tenderers the tenders submitted by them in order to adapt them to the requirements they have set in the contract notice, the contract documents and supporting documents, if any, and to seek out the best tender in accordance with regulation 48.

(2) During the negotiations, contracting authorities or entities shall ensure the equal treatment of all tenderers. In particular, they shall not provide information in a discriminatory manner which may give some tenderers an advantage over others.

(3) Contracting authorities or entities may provide for the negotiated procedure to take place in successive stages in order to reduce the number of tenders to be negotiated by applying the award criteria set out in the contract notice or the contract documents. The contract notice or the contract documents shall indicate whether or not this option has been used.

Competitive dialogue.

28. (1) In case of particularly complex contracts, where contracting authorities consider that the use of the open or restricted procedure will not allow the award of the contract, the contracting authorities may make use of the competitive dialogue

in accordance with this regulation:

Provided that a public contract shall be awarded on the sole basis of the award criterion for the most economically advantageous tender.

(2) Contracting authorities or entities shall publish a contract notice setting out their needs and requirements, which they shall define in that notice and, or in a descriptive document.

(3) Contracting authorities or entities shall open, with the candidates selected in accordance with the relevant provisions of regulation 39 to 47, a dialogue, the aim of which shall be to identify and define the means best suited to satisfying their needs. They may discuss all aspects of the contract with the chosen candidates during this dialogue.

(4) During the dialogue mentioned in the sub-regulation (3), contracting authorities or entities shall ensure equality of treatment among all tenderers. In particular, they shall not provide information in a discriminatory manner which may give some tenderers an advantage over others.

(5) Contracting authorities or entities may not reveal to the other participants solutions proposed or other confidential information communicated by a candidate participating in the dialogue, without the agreement of that candidate.

(6) Contracting authorities or entities may provide for the procedure to take place in successive stages in order to reduce the number of solutions to be discussed during the dialogue stage by applying the award criteria set out in the contract notice or the descriptive document. The contract notice or the descriptive document shall indicate that recourse may be had to this option.

(7) The contracting authority or entity shall continue such dialogue until it can identify the solution or solutions, if necessary after comparing them, which are likely to meet its needs.

(8) Having declared that the dialogue is concluded and having so informed the participants, contracting authorities or entities shall ask the participants to submit their final tenders on the basis of the solution or solutions presented and specified during the dialogue. These tenders shall contain all the elements required and necessary for the performance of the project.

(9) The tenders may be clarified, specified and fine-tuned at the request of the contracting authority or entity. However, such clarification, specification, fine-tuning or additional information may not involve changes to the basic features of the tender or the call for tender, variations in which are likely to distort competition or have a discriminatory effect.

(10) Contracting authorities or entities shall assess the tenders received on the basis of the award criteria laid down in the contract notice or the descriptive document and shall choose the most economically advantageous tender in accordance with regulation 48.

(11) At the request of the contracting authority or entity, the

tenderer identified as having submitted the most economically advantageous tender may be asked to clarify aspects of the tender or confirm commitments contained in the tender, provided this does not have the effect of modifying substantial aspects of the tender or of the call for tenders and does not risk distorting competition or causing discrimination.

(12) The contracting authorities or entities may specify prices or payments to the participants in the dialogue.

Cases justifying use of the negotiated procedure without publication of a contract notice.

29. Contracting authorities or entities may award contracts by a negotiated procedure without prior publication of a contract notice and shall justify the use of this procedure in the contract award notice as required in regulation 31(3) in the following cases:

(a) for works contracts, supply contracts and service contracts:

- (i) when no tenders or no suitable tenders or no applications have been submitted in response to a restricted procedure, a negotiated procedure with prior publication of a contract notice or a competitive dialogue, provided that the initial conditions of the contract are not substantially altered and on condition that a report is sent to the Commission, if it so requests;
- (ii) in the event of irregular tenders or the submission of tenders which are unacceptable under national provisions compatible with regulations 6, 20, 22 to 25 and Chapter VII of Part II, in response to a restricted procedure, a negotiated procedure with publication or a competitive dialogue, insofar as:
 1. the original terms of the contract are not substantially altered, and
 2. they include in the negotiated procedure of all, and only, the tenderers which satisfy the criteria of regulations 40 to 47 and which, during the prior restricted procedure or competitive dialogue, had submitted tenders in accordance with the formal requirements of the tendering procedure;
- (iii) when the periods laid down for the restricted procedure and negotiated procedure with publication of a contract notice, including the shortened periods referred to in regulation 34(9), are incompatible with the urgency resulting from a crisis. This may apply for instance in the cases referred to in regulation 24(1)(d);
- (iv) insofar as is strictly necessary when, for reasons of extreme urgency brought about by events unforeseeable by the contracting authorities or entities in question, the time-limit for the

- restricted procedure or the negotiated procedure with publication of a contract notice, including the shortened time-limits as referred to in regulation 34(7), cannot be complied with. The circumstances invoked to justify extreme urgency must not in any event be attributable to the contracting authority or entity;
- (v) when, for technical reasons or reasons connected with the protection of exclusive rights, the contract may be awarded only to a particular economic operator;
- (b) for service contracts and supply contracts:
- (i) for research and development services other than those referred to in regulation 14;
 - (ii) for products manufactured purely for the purpose of research and development, with the exception of quantity production to establish commercial viability or recover research and development costs;
- (c) for supply contracts:
- (i) for additional deliveries by the original supplier which are intended either as a partial replacement of normal supplies or installations or as the extension of existing supplies or installations where a change of supplier would oblige the contracting authority or entity to acquire material having different technical characteristics which would result in incompatibility or disproportionate technical difficulties in operation and maintenance:
Provided that the length of such contracts, as well as that of recurrent contracts, may not exceed five years, except in exceptional circumstances determined by taking into account the expected service life of any delivered items, installations or systems, and the technical difficulties which a change of supplier may cause;
 - (ii) for supplies quoted and purchased on a commodity market;
 - (iii) for the purchase of supplies on particularly advantageous terms, from either a supplier which is definitively winding up its business activities, or the receivers or liquidators of a bankruptcy, an arrangement with creditors, or a similar procedure under national laws or regulations;
- (d) for works contracts and service contracts:
- (i) for additional works or services not included in the project initially considered or in the original contract but which have, through unforeseen

circumstances, become necessary for the performance of the works or services described therein, on condition that the award is made to the economic operator performing such works or services:

1. when such additional works or services cannot be technically or economically separated from the original contract without major inconvenience to the contracting authorities or entities, or
2. when such works or services, although separable from the performance of the original contract, are strictly necessary for its completion.

However, the aggregate value of contracts awarded for additional works or services may not exceed 50% of the amount of the original contract;

- (ii) for new works or services consisting in the repetition of similar works or services entrusted to the economic operator to which the same contracting authorities or entities awarded an original contract, provided that such works or services are in conformity with a basic project for which the original contract was awarded according to the restricted procedure, the negotiated procedure with publication of a contract notice or a competitive dialogue:

Provided that as soon as the first project is put up for tender, the possible use of this procedure shall be disclosed, and the total estimated cost of subsequent works or services shall be taken into consideration by the contracting authorities or entities when they apply regulation 9:

Provided further that this procedure may be used only during the five years following the conclusion of the original contract, except in exceptional circumstances determined by taking into account the expected service life of any delivered items, installations or systems, and the technical difficulties which a change of supplier may cause;

- (e) for contracts related to the provision of air and maritime transport services for the armed forces or security forces of Malta deployed or to be deployed abroad, when the contracting authority or entity has to procure such services from economic operators that guarantee the validity of their tenders only for such short periods that the time-limit for the restricted procedure or the negotiated procedure with publication of a contract notice, including the shortened time-limits as referred to in regulation 34(9), cannot be

complied with.

30. (1) Contracting authorities or entities may conclude framework agreements. Framework agreements.

(2) For the purpose of concluding a framework agreement, contracting authorities or entities shall follow the rules of procedure referred to herein for all phases up to the award of contracts based on that framework agreement. The parties to the framework agreement shall be chosen by applying the award criteria set in accordance with regulation 48.

(3) Contracts based on a framework agreement shall be awarded in accordance with the procedures laid down in sub-regulations (8) and (9). Those procedures may be applied only between the contracting authorities or entities and the economic operators originally party to the framework agreement.

(4) When awarding contracts based on a framework agreement, the parties may under no circumstances make substantial amendments to the terms laid down in that framework agreement, in particular in the case referred to in sub-regulation (8).

(5) The term of a framework agreement may not exceed seven years, except in exceptional circumstances determined by taking into account the expected service life of any delivered items, installations or systems, and the technical difficulties which a change of supplier may cause.

(6) For the exceptional circumstances mentioned in sub-regulation (5), the contracting authorities or entities shall provide an appropriate justification for those circumstances in the notice referred to in regulation 31(3).

(7) Contracting authorities or entities may not use framework agreements improperly or in such a way as to prevent, restrict or distort competition.

(8) Where a framework agreement is concluded with a single economic operator, contracts based on that agreement shall be awarded within the limits of the terms laid down in the framework agreement.

For the award of those contracts, contracting authorities or entities may consult the operator party to the framework agreement in writing, requesting it to supplement its tender as necessary.

(9) Where a framework agreement is concluded with several economic operators, the latter must be at least three in number, insofar as there is a sufficient number of economic operators that satisfy the selection criteria and, or of admissible tenders that meet the award criteria.

(10) Contracts based on framework agreements concluded with several economic operators may be awarded either:

- (a) by application of the terms laid down in the framework agreement without reopening competition, or
- (b) where not all the terms are laid down in the framework agreement, when the parties are again in competition

on the basis of the same and, if necessary, more precisely formulated terms, and, where appropriate, other terms referred to in the contract documents of the framework agreement, in accordance with the following procedure:

- (i) for every contract to be awarded, contracting authorities or entities shall consult in writing the economic operators capable of performing the contract;
- (ii) contracting authorities or entities shall fix a time-limit which is sufficiently long to allow tenders for each specific contract to be submitted, taking into account factors such as the complexity of the subject-matter of the contract and the time needed to submit tenders;
- (iii) tenders shall be submitted in writing and their content remain confidential until the stipulated time-limit for reply has expired;
- (iv) contracting authorities or entities shall award each contract to the tenderer which has submitted the best tender on the basis of the award criteria set out in the contract documents of the framework agreement.

Chapter VI

Rules on advertising and transparency

Section 1

Publication of notices

Notices.

31. (1) Contracting authorities or entities may make known, by means of a prior information notice published by the Commission or by themselves on their 'buyer profile', as described in point 2 of Schedule V:

- (a) where supplies are concerned, the estimated total value of the contracts or the framework agreements by product area which they intend to award over the following twelve months.

The product area shall be established by the contracting authorities or entities by reference to the CPV nomenclature;

- (b) where services are concerned, the estimated total value of the contracts or framework agreements in each of the categories of services which they intend to award over the following twelve months;
- (c) where works are concerned, the essential characteristics of the contracts or framework agreements which they intend to award.

(2) The notices referred to in sub-regulation (1) shall be sent to the Commission or published on the buyer profile at the earliest opportunity after the decision approving the project for which the

contracting authorities or entities intend to award contracts or framework agreements.

(3) Contracting authorities or entities that publish a prior information notice on their buyer profiles shall send the Commission, electronically, a notice of publication of the prior information notice on a buyer profile, in accordance with the format and detailed procedures for sending notices set out in point 3 of Schedule V.

(4) Publication of the notices referred to in sub-regulation (1) shall be compulsory only where the contracting authorities or entities take the option of shortening the time-limits for the receipt of tenders as laid down in regulation 34(4).

(5) Sub-regulations (1) to (4) shall not apply to negotiated procedures without the prior publication of a contract notice.

(6) Contracting authorities or entities which wish to award a contract or a framework agreement by restricted procedure, negotiated procedure with the publication of a contract notice or a competitive dialogue shall make known their intention by means of a contract notice.

(7) Contracting authorities or entities which have awarded a contract or concluded a framework agreement shall send a notice of the results of the award procedure no later than forty-eight days after the award of the contract or the conclusion of the framework agreement.

(8) In the case of framework agreements concluded in accordance with regulation 30, the contracting authorities or entities shall not be bound to send a notice of the results of the award procedure for each contract based on that agreement.

(9) Certain information on the contract award or the conclusion of the framework agreement may be withheld from publication where release of such information would impede law enforcement or otherwise be contrary to the public interest, in particular defence and, or security interests, would harm the legitimate commercial interests of economic operators, public or private, or might prejudice fair competition between them.

32. Contracting authorities or entities may publish, in accordance with regulation 33, notices concerning contracts which are not subject to the publication requirement laid down in these regulations.

Non-mandatory publication.

33. (1) Notices shall include the information referred to in Schedule III and, where appropriate, any other information deemed useful by the contracting authority or entity in the format of the standard forms adopted by the Commission in accordance with the advisory procedure referred to in Article 67(2) of Directive 2009/81/EC of the European Parliament and of the Council.

Form and manner of publication of notices.

(2) Notices sent by contracting authorities or entities to the Commission shall be sent either by electronic means in accordance with the format and procedures for transmission set out in point 3 of Schedule V, or by other means. In the event of recourse to the

accelerated procedure set out in regulation 34(9), notices must be sent either by fax or by electronic means, in accordance with the format and procedures for transmission set out in point 3 of Schedule V.

(3) Notices shall be published in accordance with the technical characteristics for publication set out in point 1(a) and (b) of Schedule V.

(4) Notices drawn up and transmitted by electronic means in accordance with the format and procedures for transmission set out in point 3 of Schedule V shall be published no later than five days after they are sent.

(5) Notices which are not transmitted by electronic means in accordance with the format and procedures for transmission set out in point 3 of Schedule V shall be published no later than twelve days after they are sent, or, in the case of the accelerated procedure referred to in regulation 34(9), no later than five days after they are sent.

(6) Contract notices shall be published in full in the English language which shall constitute the sole authentic text. A summary of the important elements of each notice shall be published in the other official languages.

(7) Notices and their contents may not be published by the contracting authorities or entities on a buyer profile before the date on which they are sent to the Commission.

(8) The notices published shall not contain information other than that contained in the notices sent to the Commission or published on a buyer profile in accordance with regulation 31(1)(a), but shall mention the date of dispatch of the notice to the Commission or its publication on a buyer profile.

(9) Prior information notices may not be published on a buyer profile before the dispatch to the Commission of the notice of their publication in that form. The notice shall mention the date of that dispatch.

(10) The content of notices not sent by electronic means in accordance with the format and procedures for transmission set out in point 3 of Schedule V shall be limited to approximately 650 words.

(11) Contracting authorities or entities must be able to supply proof of the dates on which notices are dispatched.

(12) The Commission shall give the contracting authority or entity confirmation of the publication of the information sent, mentioning the date of such publication. Such confirmation shall constitute proof of publication.

Section 2

Time limits

34. (1) When fixing the time-limits for receipt of requests to participate and tenders, contracting authorities or entities shall take particular account of the complexity of the contract and the time required for drawing up tenders, without prejudice to the minimum time-limits set by this regulation.

Time-limits for receipt of requests to participate and for receipt of tenders.

(2) In restricted procedures, negotiated procedures with the publication of a contract notice and use of a competitive dialogue, the minimum time-limit for receipt of requests to participate shall be thirty-seven days from the date on which the contract notice is sent.

(3) In the case of restricted procedures, the minimum time-limit for the receipt of tenders shall be forty days from the date on which the invitation is sent.

(4) When contracting authorities or entities have published a prior information notice, the minimum time-limit for the receipt of tenders under sub-regulation (3) may, as a general rule, be shortened to thirty-six days, but under no circumstances to less than twenty-two days.

The time-limit shall run from the date on which the invitation to tender was sent.

(5) The shortened time-limits referred to in sub-regulation (1) shall be permitted, provided that the prior information notice has included all the information required for the contract notice set out in Schedule III, insofar as that information is available at the time the notice is published and that the prior information notice was sent for publication between fifty-two days and twelve months before the date on which the contract notice was sent.

(6) Where notices are drawn up and transmitted by electronic means in accordance with the format and procedure for sending notices set out in point 3 of Schedule V, the time-limit for the receipt of the requests to participate referred to in sub-regulation (2) may be shortened by seven days.

(7) The time-limits for receipt of tenders referred to in sub-regulation (3) may be reduced by five days where the contracting authority or entity offers unrestricted and full direct access by electronic means to the contract documents and any supporting documents from the date of publication of the notice in accordance with Schedule V, specifying in the text of the notice the internet address at which this documentation is accessible.

This reduction may be added to that referred to in sub-regulation (6).

(8) If, for whatever reason, the contract documents and supporting documents or additional information, although requested in good time, are not supplied within the time-limits set out in regulation 35, or where tenders can be made only after a visit to the site or after on-the-spot inspection of the documents supporting the contract documents, the time-limits for the receipt of

tenders shall be extended so that all economic operators concerned may be aware of all the information needed to produce tenders.

(9) In the case of restricted procedures and negotiated procedures with publication of a contract notice, where urgency renders impracticable the minimum time-limits laid down in this regulation, contracting authorities or entities may fix:

- (a) a time-limit for receipt of requests to participate which may not be less than fifteen days from the date on which the contract notice is dispatched, or less than ten days if the notice was sent by electronic means, in accordance with the format and procedure for sending notices set out in point 3 of Schedule V; and
- (b) in the case of restricted procedures, a time-limit for receipt of tenders which shall not be less than ten days from the date of the invitation to tender.

Section 3

Information content and means of transmission

Invitations to tender, negotiate or participate in a dialogue.

35. (1) In restricted procedures, negotiated procedures with the publication of a contract notice and competitive dialogues, the contracting authorities or entities shall simultaneously and in writing invite the selected candidates to submit their tenders or to negotiate, or, in the case of a competitive dialogue, to take part in the dialogue.

(2) The invitation to the candidates shall include either:

- (a) a copy of the contract documents or of the descriptive document and any supporting documents, or
- (b) a reference to accessing the documents referred to in paragraph (a) when they are made directly available by electronic means in accordance with regulation 34(7).

(3) Where the contract documents, the descriptive document and, or any supporting documents are held by an entity other than the contracting authority or entity responsible for the award procedure, the invitation shall state the address from which that documentation may be requested and, if appropriate, the closing date for requesting such documents, the sum payable for obtaining them and any payment procedures. The competent department shall send that documentation to the economic operator without delay upon receipt of a request.

(4) The additional information on the contract documents, the descriptive document and, or the supporting documents shall be sent by the contracting authority or entity or the competent department not less than six days before the deadline fixed for the receipt of tenders, provided that it is requested in good time. In the event of a restricted or an accelerated procedure, that period shall be four days.

(5) In addition to the particulars provided for in sub-regulations (2), (3) and (4), the invitation shall contain at least:

- (a) a reference to the contract notice published;
- (b) the deadline for receipt of tenders, the address to which the tenders must be sent and the language or languages in which the tenders must be drawn up. In the case of a competitive dialogue, this information shall not be contained in the invitation to take part in the dialogue, but in the invitation to submit a tender;
- (c) in the case of a competitive dialogue, the date and the address set for the start of the consultation stage and the language or languages used;
- (d) an indication of any documents to be annexed, either to support the verifiable statements provided by the candidate in accordance with regulation 39, or to supplement the information provided for in that regulation under the same conditions as those laid down in regulations 42 and 43;
- (e) the relative weighting of criteria for the award of the contract or, where appropriate, the descending order of importance of the criteria used to define the economically most advantageous tender, if they are not given in the contract notice, the contract documents or the descriptive document.

36. (1) The contracting authorities or entities shall, at the earliest opportunity, inform candidates and tenderers of decisions reached concerning the award of a contract or the conclusion of a framework agreement, including the grounds for any decision not to award a contract or conclude a framework agreement for which there has been competitive tendering or to recommence the procedure; that information shall be given in writing upon request to the contracting authorities or entities.

Information for candidates and tenderers.

(2) At the request of the party concerned, the contracting authority or entity shall, subject to sub-regulation (3), at the earliest opportunity and at the latest within fifteen days of receipt of the written request for information, inform the parties as follows:

- (a) any unsuccessful candidate of the reasons for the rejection of the application;
- (b) any unsuccessful tenderer of the reasons for the rejection of the tender, including, in particular, for the cases referred to in regulation 19(4) and (5), the reasons for its decision of non-equivalence or its decision that the works, supplies or services do not meet the performance or functional requirements, and in the cases referred to in regulations 23 and 24, the reasons for its decision of non-conformity with the requirements of security of information and security of supply;
- (c) any tenderer which has made an admissible tender that has been rejected, of the characteristics and relative advantages of the tender selected, as well as the name of the successful tenderer or the parties to the

framework agreement.

(3) Contracting authorities or entities may decide to withhold certain information on the contract award or the conclusion of the framework agreements referred to in sub-regulation (1) where release of such information would impede law enforcement or otherwise be contrary to the public interest, in particular defence and, or security interests, would prejudice the legitimate commercial interests of economic operators, whether public or private, or might prejudice fair competition between them.

Section 4

Communication

Rules applying to communication.

37. (1) All communication and information exchange referred to in this Title may be made by post, fax, electronic means in accordance with sub-regulations (4) and (5), telephone in the cases and circumstances referred to in sub-regulation (6), or a combination of those means, according to the choice of the contracting authority or entity.

(2) The means of communication chosen must be generally available and thus not restrict the access of economic operators to the tendering procedure.

(3) Communication and the exchange and storage of information shall be carried out in such a way as to ensure that the integrity of data and the confidentiality of requests to participate and tenders are preserved, and that the contracting authorities or entities examine the content of requests to participate and tenders only after the time-limit set for submitting them has expired.

(4) The tools to be used for communicating by electronic means, as well as their technical characteristics, must be non-discriminatory, generally available and compatible with information and communication technology products in general use.

(5) The following rules shall apply to devices for the electronic transmission and receipt of tenders and devices for the electronic receipt of requests to participate:

- (a) information regarding the specifications necessary for the electronic submission of tenders and requests to participate, including encryption, shall be available to interested parties. Moreover, devices for the electronic receipt of tenders and requests to participate shall conform to the requirements of Schedule VII;
- (b) contracting authorities or entities may, in compliance with Article 5 of Directive 1999/93/EC, require electronic tenders to be accompanied by an advanced electronic signature, in conformity with paragraph 1 thereof;
- (c) contracting authorities or entities may introduce or maintain voluntary arrangements for accreditation intended to improve the level of the certification

service provided for such devices;

- (d) tenderers or candidates shall undertake to submit, before expiry of the time-limit laid down for submission of tenders or requests to participate, the documents, certificates and declarations referred to in regulations 40 to 45 and regulation 47, if they do not exist in electronic format.

(6) The following rules shall apply to the transmission of requests to participate:

- (a) requests to participate in procedures for the award of contracts may be made in writing or by telephone;
- (b) where requests to participate are made by telephone, a written confirmation must be sent before expiry of the time-limit set for their receipt;
- (c) contracting authorities or entities may require that requests for participation made by fax must be confirmed by post or electronic means where this is necessary for the purposes of legal proof. Any such requirement, together with the time-limit by which it must be met, must be stated by the contracting authority or entity in the contract notice.

Section 5

Reports

38. (1) For every contract and framework agreement, the contracting authorities or entities shall draw up a written report to confirm that the selection procedure was undertaken in a transparent and non-discriminatory manner, which shall include at least the following: Content of reports.

- (a) the name and address of the contracting authority or entity and the subject and value of the contract or framework agreement;
- (b) the award procedure chosen;
- (c) in the case of a competitive dialogue, the circumstances justifying the use of this procedure;
- (d) in the case of a negotiated procedure without prior publication of a contract notice, the circumstances referred to in regulation 29 which justify the use of this procedure; if appropriate, justification for exceeding the time-limits laid down in the proviso to regulation 29(c)(i) and the second proviso to regulation 29(d)(ii) and for exceeding the 50% limit laid down in the concluding provision of regulation 29(d)(i);
- (e) if appropriate, the reasons for the framework agreement lasting more than seven years;
- (f) the name of the candidates chosen and the reason for this choice;
- (g) the name of the candidates excluded and the reasons

for their rejection;

- (h) the reasons for the rejection of tenders;
- (i) the name of the successful tenderer and the reasons why its tender was selected, and, if known, the share of the contract or framework agreement which the successful tenderer intends, or will be required, to subcontract to third parties;
- (j) if necessary, the reasons why the contracting authority or entity decided not to award a contract or framework agreement.

(2) Contracting authorities or entities shall take appropriate steps to document the progress of award procedures conducted by electronic means.

(3) The report, or the main features of it, shall be communicated to the Commission, if it so requests.

Chapter VII

Conduct of the procedure

Section 1

General Provisions

Verification of the suitability and choice of participants and award of contracts.

39. (1) Contracts shall be awarded on the basis of the criteria laid down in regulations 48 and 50, taking into account regulation 20, after the suitability of the economic operators not excluded under regulations 40 or 41 has been checked by contracting authorities or entities in accordance with the criteria of economic and financial standing, of professional and technical knowledge or ability referred to in regulations 42 to 47 and, where appropriate, with the non-discriminatory rules and criteria referred to in sub-regulation (3).

(2) Contracting authorities or entities may require candidates to meet minimum capacity levels in accordance with regulations 42 and 43 and the extent of the information referred to in regulations 42 and 43 and the minimum levels of ability required for a specific contract must be related and proportionate to the subject-matter of the contract.

These minimum levels shall be indicated in the contract notice.

(3) In restricted procedures, negotiated procedures with publication of a contract notice and competitive dialogues, contracting authorities or entities may limit the number of suitable candidates they will invite to tender or with which they will conduct a dialogue. In this case:

- (a) the contracting authorities or entities shall indicate in the contract notice the objective and non-discriminatory criteria or rules they intend to apply, the minimum number of candidates they intend to invite and, where appropriate, the maximum number. The minimum number of candidates they intend to

invite may not be less than three;

- (b) subsequently, the contracting authorities or entities shall invite a number of candidates at least equal to the minimum number set in advance, provided a sufficient number of suitable candidates is available.

(4) Where the number of candidates meeting the selection criteria and the minimum levels of ability is below the minimum number, the contracting authority or entity may continue the procedure by inviting the candidate or candidates with the required capabilities.

(5) If the contracting authority or entity considers that the number of suitable candidates is too low to ensure genuine competition, it may suspend the procedure and re-publish the initial contract notice in accordance with regulations 31(2) and 33, fixing a new deadline for the submission of requests to participate. In this case, the candidates selected upon the first publication and those selected upon the second shall be invited in accordance with regulation 35. This option shall be without prejudice to the ability of the contracting authority or entity to cancel the ongoing procurement procedure and launch a new procedure.

(6) In the context of an award procedure, the contracting authority or entity may not include economic operators other than those which made a request to participate, or candidates without the requisite capabilities.

(7) Where the contracting authorities or entities exercise the option of reducing the number of solutions to be discussed or of tenders to be negotiated, as provided for in regulations 27(6) and 28(4), they shall do so by applying the award criteria stated in the contract notice or the contract documents. In the final stage, the number arrived at shall make for genuine competition insofar as there are enough solutions or suitable candidates.

Section 2

Criteria for qualitative selection

40. (1) Any candidate or tenderer which has been the subject of a conviction by final judgment of which the contracting authority or entity is aware, for one or more of the reasons listed hereunder, shall be excluded from participation in a contract:

- (a) participation in a criminal organisation, as defined in Article 2(1) of Joint Action 98/733/JHA;
- (b) corruption, as defined in Article 3 of the Council Act of 26 May 1997 drawing up, on the basis of Article K.3 (2)(c) of the Treaty on European Union, the Convention on the fight against corruption involving officials of the European Communities or officials of Member States of the European Union, and Article 2(1) of Council Framework Decision 2003/568/JHA of 22 July 2003 on combating corruption in the private sector;
- (c) fraud within the meaning of Article 1 of the

Personal situation
of the candidate or
tenderer.

Convention relating to the Protection of the Financial Interests of the European Communities;

- (d) terrorist offences or offences linked to terrorist activities, as defined in Articles 1 and 3 of Framework Decision 2002/475/JHA respectively, or inciting, aiding or abetting or attempting to commit an offence, as referred to in Article 4 of that Framework Decision;
- (e) money laundering and terrorist financing, as defined in Article 1 of Directive 2005/60/EC:

Provided that the Director may authorise a derogation from the application of this sub-regulation for overriding requirements in the general interest.

(2) For the purposes of sub-regulation (1), the contracting authorities or entities shall, where appropriate, ask candidates or tenderers to supply the documents referred to in sub-regulation (6) and may, where they have doubts concerning the personal situation of such candidates or tenderers, also apply to the competent authorities to obtain any information they consider necessary on the personal situation of the candidates or tenderers concerned.

(3) Where the information concerns a candidate or tenderer established in a State other than that of the contracting authority or entity, the contracting authority or entity may seek the cooperation of the competent authorities.

(4) If the candidates or tenderers are established in Malta according to national laws, the requests mentioned in this regulation shall relate to legal and, or natural persons, including, if appropriate, company directors and any person having powers of representation, decision or control in respect of the candidate or tenderer.

(5) Any economic operator may be excluded from participation in a contract where that economic operator:

- (a) is bankrupt or is being wound up, or whose affairs are being administered by the court, who has entered into an arrangement with creditors or who has suspended business activities or who is in any analogous situation arising from a similar procedure under national laws and regulations;
- (b) is the subject of proceedings for a declaration of bankruptcy, for an order for compulsory winding up or administration by the court or for an arrangement with creditors or of any other similar proceedings under national laws or regulations;
- (c) has been convicted of an offence concerning his professional conduct by a judgement which has the force of *res judicata* in accordance with national laws or regulations;
- (d) has been declared guilty of grave professional misconduct proven by any means which the contracting authorities or entities can demonstrate;

- (e) has been found, on the basis of any means of evidence, including protected data sources, not to possess the reliability necessary to exclude risks to national security;
- (f) has not fulfilled obligations relating to the payment of social security contributions in accordance with national laws or regulations or the country in which he is established;
- (g) has not fulfilled obligations relating to the payment of taxes in accordance with national legal provisions or the country in which he is established;
- (h) is guilty of serious misrepresentation in supplying the information required under these regulations or has not supplied such information.

(6) Where the contracting authority requires proof from the candidate or tenderer that none of the cases quoted in sub-regulations (1) or (2)(a), (b), (c), (f) and (g) applies to him, it shall accept, as sufficient evidence, relevant certification issued by a competent judicial or administrative body in the country of origin or the country whence that person comes showing that these requirements have been met.

(7) Where the certification referred to in sub-regulations (1) and (2)(a), (b) and (c) is not available, it may be replaced by a declaration on oath or by a solemn declaration made by the person concerned before a Commissioner for Oaths in Malta or before a judicial or administrative authority, a notary or a competent professional or trade body, in that person's country of residence.

41. (1) The contracting authority or entity may request an economic operator to prove his enrolment, as prescribed in his country of establishment, in one of the professional or trade registers or to provide a declaration or certificate as described in Part A of Schedule VI for works contracts, Part B of Schedule VI for supply contracts and Part C of Schedule VI for service contracts.

Suitability to pursue the professional activity.

(2) In procedures for the award of service contracts, insofar as candidates have to possess a particular authorisation or be a member of a particular organisation in order to be able to perform the service concerned in their country of origin, the contracting authority or entity may require them to prove that they hold such authorisation or membership.

(3) The provisions of sub-regulations (1) and (2) shall be without prejudice to the principles of Community Law on the freedom of establishment and the freedom to provide services.

42. (1) Proof of the economic operator's economic and financial standing may, as a general rule, be furnished, *inter alia*, by one or more of the following:

Economic and financial standing.

- (a) appropriate statements from banks, or where appropriate, evidence of relevant professional indemnity insurance;

- (b) the presentation of balance-sheets or extracts therefrom, where publication of the balance sheets is required under company law in the country in which the economic operator is established;
- (c) a statement of the economic operator's overall turnover and, where appropriate, its turnover in respect of the products, works or services to which the contract relates for the three previous financial years depending on the date on which the economic operator was set up or the economic operator started trading, as far as the information on these turnovers is available;

(2) An economic operator may, where appropriate and for a particular contract, rely on the capacities of other entities, regardless of the legal nature of the links which it has with them. It must in that case prove to the contracting authority that it will have at its disposal the resources necessary, for example, by producing an undertaking by those entities to that effect.

(3) Under the same conditions, a group of economic operators as referred to in regulation 6 may rely on the capabilities of participants in the group or of other entities.

(4) Contracting authorities or entities shall specify, in the contract notice or in the invitation to tender, which references mentioned in sub-regulation (1) have been chosen and which must be provided, and of any others it deems fit.

(5) In the event that a candidate or tenderer is, for any valid reason, unable to provide the references requested by a contracting authority or entity, its economic and financial standing may be substantiated by any other document which the contracting authority or entity considers appropriate.

Technical and, or professional ability.

43. (1) Evidence of the economic operators' technical abilities may be furnished by one or more of the following means according to the nature, quantity or importance, and use of the works, supplies or services:

- (a) (i) a list of the works carried out over the past five years, accompanied by certificates of satisfactory execution for the most important works. These certificates shall indicate the value, date and site of the works and shall specify whether they were carried out according to the rules of the trade and properly completed. Where appropriate, the competent authority shall submit these certificates to the contracting authority direct;
- (ii) a list of the principal deliveries effected or the main services provided in the past three years, with the sums, dates and recipients, whether public or private, involved. Evidence of delivery and services provided shall be given:
 - where the recipient was a contracting authority, in the form of certificates issued

- or countersigned by the competent authority;
 - where the recipient was a private purchaser, by the purchaser's certification or, failing this, simply by a declaration by the economic operator;
- (b) an indication of the technicians or technical bodies involved, whether or not belonging directly to the economic operator's undertaking, especially those responsible for quality control and, in the case of public works contracts, those upon whom the contractor can call in order to carry out the work;
 - (c) a description of the technical facilities and measures used by the economic operator to ensure quality and the undertaking's study and research facilities, as well as internal rules regarding intellectual property;
 - (d) a check carried out by the contracting authorities or entities or on their behalf by a competent official body of the country in which the economic operator is established, subject to that body's agreement, on the production capacities of the supplier or the technical capacity of the economic operator and, if necessary, on the means of study and research which are available to it and the quality control measures it will operate;
 - (e) in the case of works contracts, service contracts or supply contracts also covering siting and installation operations or services, the educational and professional qualifications of the economic operator and, or those of the undertaking's managerial staff and, in particular, those of the person or persons responsible for providing the services or managing the work;
 - (f) for public works contracts and public services contracts, and only in appropriate cases, an indication of the environmental management measures that the economic operator will be able to apply when performing the contract;
 - (g) a statement of the average annual manpower of the service provider or contractor and the number of managerial staff for the last three years;
 - (h) a description of the tools, material, technical equipment, staff numbers and know-how and, or sources of supply - with an indication of the geographical location when it is outside the territory of the European Union - which the economic operator has at its disposal to perform the contract, cope with any additional needs required by the contracting authority or entity as a result of a crisis or carry out the maintenance, modernisation or adaptation of the supplies covered by the contract;
 - (i) with regard to the products to be supplied, provision

of:

- (i) samples, descriptions and or photographs, the authenticity of which must be certified if the contracting authority or entity so requests;
 - (ii) certificates drawn up by official quality control institutes or agencies of recognised competence attesting the conformity of products, clearly identified by references to specifications or standards;
- (j) in the case of contracts involving, entailing and, or containing classified information, evidence of the ability to process, store and transmit such information at the level of protection required by the contracting authority or entity.

(2) In the absence of harmonisation at Community level of national security clearance systems, contracting authorities or entities may provide that this evidence has to comply with the relevant provisions of their respective national laws on security clearance. Contracting authorities or entities shall recognise security clearances which they consider equivalent to those issued in accordance with their national law, notwithstanding the possibility to conduct and take into account further investigations of their own, if considered necessary.

(3) The contracting authority or entity may, where appropriate, grant candidates which do not yet hold security clearance additional time to obtain such clearance. In this case, it shall indicate this possibility and the time-limit in the contract notice.

(4) The contracting authority or entity may ask the national security authority of the candidate's Member State or the security authority designated by that Member State to check the conformity of the premises and facilities that may be used, the industrial and administrative procedures that will be followed, the methods for managing information and, or the situation of staff likely to be employed to carry out the contract.

(5) An economic operator may, where appropriate and for a particular contract, rely on the capacities of other entities, regardless of the legal nature of the links which it has with them. It shall in that case prove to the contracting authority or entity that it will have at its disposal the resources necessary for the execution of the contract, for example by producing an undertaking by those entities to put the necessary resources at the disposal of the economic operator.

(6) Under the same conditions, a group of economic operators as referred to in regulation 6 may rely on the abilities of participants in the group or of other entities.

(7) In procedures for awarding contracts having as their object supplies requiring siting or installation work, the provision of services and, or the execution of works, the ability of economic operators to provide the service or to execute the installation or the work may be evaluated in particular with regard to their skills,

efficiency, experience and reliability.

(8) The contracting authority or entity shall specify in the notice which of the references referred to in sub-regulation (1) it has chosen and which other references must be provided.

(9) In the event for any valid reason, the economic operator is unable to provide the references requested by the contracting authority or entity, it may prove its technical and, or professional ability by any other document which the contracting authority or entity considers appropriate.

44. Should contracting authorities or entities require the production of certificates drawn up by independent accredited bodies attesting the compliance of the economic operator with certain quality management systems standards, such contracting authorities or entities shall refer to quality management systems based on the relevant European standards certified by independent accredited bodies conforming to the European standards concerning accreditation and certification. They shall recognise equivalent certificates from independent accredited bodies established in other Member States. They shall also accept other evidence of equivalent quality management systems from economic operators.

Quality management systems standards.

45. Should contracting authorities or entities, in the cases referred to in regulation 43(1)(f), require the production of certificates drawn up by independent bodies attesting the compliance of the economic operator with certain environmental management standards, they shall refer to the Community Eco-Management and Audit Scheme (EMAS) or to environmental management standards based on the relevant European or international standards certified by bodies conforming to Community law or the relevant European or international standards concerning certification. They shall recognise equivalent certificates from bodies established in other Member States. They shall also accept other evidence of equivalent environmental management measures from economic operators

Environmental management standards.

46. The contracting authority or entity may invite economic operators to supplement or clarify the certificates and documents submitted pursuant to regulations 40 to 45.

Additional documentation and information.

47. (1) Contracting authorities or entities may introduce either official lists of approved contractors, suppliers or service providers or certification by certification bodies established under public or private law.

Official lists of approved economic operators and certification by bodies established under public or private law.

(2) The Director shall adapt conditions for registration on the lists and for the issue of certificates by certification bodies mentioned in sub-regulation (1) to the provisions of regulation 42(1), (4) and (5), regulation 44(1)(a) to (i), (2) and (4) and, where appropriate regulation 45.

(3) Furthermore the Director shall also adapt the conditions referred to in sub-regulation (1) to regulations 42(2) and 43(2) as regards application for registration submitted by economic operators belonging to a group and claiming resources made

available to them by the other companies in the group. In such a case, these operators must prove to the Director that they will have these resources at their disposal throughout the period of validity of the certificate attesting to their being registered in the official list, and that throughout the same period these companies must continue to fulfil the qualitative selection requirements laid down in the provisions referred to in sub-regulation (2) on which operators rely for their registration.

(4) Economic operators registered in the official lists of their country may, for each contract, submit to the contracting authority a certificate of registration issued by the competent authority. This certificate shall state the reference which enabled them to be registered in the list or to obtain certification and the classification given in that list.

(5) Certified registration on official lists by the competent authorities or a certificate issued by the certification body shall not, for the purposes of the contracting authorities or entities of other Member States, constitute a presumption of suitability except as regards regulation 40(1) and (2)(a) to (d) and (h), regulation 41, regulation 42(1)(b) and (c) and regulation 43(1)(a)(i) and (b) to (g) in the case of contractors, regulation 43(1)(a)(ii), (b) to (e) and (i) in the case of suppliers and regulation 43(1)(a)(ii), (b) to (e) and (g) in the case of service providers.

(6) Information which can be deduced from registration on official lists or certification may not be questioned without justification. With regard to the payment of social security contributions and taxes, an additional certificate may be required of any registered economic operator whenever a contract is offered.

(7) The contracting authorities shall apply the above provisions only in favour of economic operators established in the Member State holding the official list.

(8) When economic operators from other Member States are being registered in a local official list, no proof or statement can be required other than those requested of national economic operators and, in any event, only those provided for under regulations 40 to 44 and, where appropriate, regulation 45:

Provided that economic operators from other Member States may not be obliged to undergo such registration or certification in order to participate in a contract. Contracting authorities or entities shall recognise equivalent certificates from bodies established in other Member States. They shall also accept other equivalent means of proof.

(9) Economic operators may apply at any time to be registered on an official list or for a certificate to be issued. They must be informed within a reasonably short period of time of the decision of the authority drawing up the list or of the competent certification body.

(10) The certification bodies referred to in sub-regulation (1)

shall be bodies complying with European certification standards.

(11) Contracting authorities or entities that have official lists or certification bodies as referred to in sub-regulation (1) shall be obliged to inform the Commission and the other Member States of the address of the body to which applications should be sent.

Section 3

Award of the contract

48. (1) The criteria on which the contracting authorities or entities shall base the award of contracts shall be either: Contract award criteria.

(a) when the award is made to the most economically advantageous tender from the point of view of the contracting authority or entity, various criteria linked to the subject-matter of the contract in question: for example, quality, price, technical merit, functional characteristics, environmental characteristics, running costs, lifecycle costs, cost-effectiveness, after-sales service and technical assistance, delivery date and delivery period or period of completion, security of supply, interoperability and operational characteristics; or

(b) the lowest price only.

(2) The contracting authority or entity shall specify in the contract documentation (contract notices, contract documents, descriptive documents or supporting documents) the relative weighting which it gives to each of the criteria chosen to determine the most economically advantageous tender.

(3) The weightings can be expressed by providing for a range with an appropriate maximum spread.

(4) Where, in the opinion of the contracting authority or entity, weighting is not possible for demonstrable reasons, the contracting authority or entity shall indicate in the contract documentation (contract notices, contract documents, descriptive documents or supporting documents) the criteria in descending order of importance.

49. (1) The Director may provide that contracting authorities or entities may use electronic auctions. Use of electronic auctions.

(2) In restricted and negotiated procedures with publication of a contract notice, the contracting authorities or entities may decide that the award of a contract shall be preceded by an electronic auction when the contract specifications can be established with precision.

(3) In the circumstances mentioned in sub-regulation (2), an electronic auction may be held on the reopening of competition among the parties to a framework agreement as provided for in regulation 30(10)(b)(ii).

(4) The electronic auction shall be based:

(a) solely on price, where the contract is awarded to the

lowest price; or

- (b) on price and, or on the new values of the features of the tenders indicated in the contract documents, where the contract is awarded to the most economically advantageous tender.

(5) Contracting authorities or entities which decide to hold an electronic auction shall state that fact in the contract notice.

(6) The contract documents shall include, *inter alia*, the following details:

- (a) the features, the values for which will be the subject of electronic auction, provided that such features are quantifiable and can be expressed in figures or percentages;
- (b) any limitations on the values which may be submitted, as they result from the specifications relating to the subject of the contract;
- (c) the information which will be made available to tenderers in the course of the electronic auction and, where appropriate, when it will be made available to them;
- (d) the relevant information concerning the electronic auction process;
- (e) the conditions under which tenderers will be able to bid and, in particular, the minimum differences which will, where appropriate, be required when bidding;
- (f) the relevant information concerning the electronic equipment used and the arrangements and technical specifications for connection.

(7) Before proceeding with an electronic auction, contracting authorities or entities shall make a full initial evaluation of the tenders in accordance with the award criterion or criteria set and with the weighting fixed for them.

(8) All tenderers which have submitted admissible tenders shall be invited simultaneously by electronic means to submit new prices and, or new values; the invitation shall contain all relevant information concerning individual connection to the electronic equipment being used and shall state the date and time of the start of the electronic auction. The electronic auction may take place in a number of successive phases. The electronic auction may not start sooner than two working days after the date on which invitations are sent out.

(9) When the contract is to be awarded on the basis of the most economically advantageous tender, the invitation shall be accompanied by the outcome of a full evaluation of the relevant tenderer, carried out in accordance with the weighting provided for in regulation 48(3).

(10) The invitation mentioned in sub-regulations (8) and (9) shall also state the mathematical formula to be used in the

electronic auction to determine automatic re-rankings on the basis of the new prices and, or new values submitted. That formula shall incorporate the weighting of all the criteria fixed to determine the most economically advantageous tender, as indicated in the contract notice or in the specifications; for that purpose, any ranges shall, however, be reduced in advance to a specified value:

Provided that where variants are authorised, a separate formula shall be provided for each variant.

(11) Throughout each phase of an electronic auction, the contracting authorities or entities shall instantaneously communicate to all tenderers at least sufficient information to enable them to ascertain their relative rankings at any moment. They may also communicate other information concerning other prices or values submitted, provided that that is stated in the contract documents. They may also at any time announce the number of participants in that phase of the auction. In no case, however, may they disclose the identities of the tenderers during any phase of an electronic auction.

(12) Contracting authorities or entities shall close an electronic auction in one or more of the following manners:

- (a) in accordance with the date and time fixed in advance, as indicated in the invitation to take part in the auction;
- (b) when they receive no more new prices or new values which meet the requirements concerning minimum differences. In that event, the contracting authorities or entities shall state in the invitation to take part in the auction the time which they will allow to elapse after receiving the last submission before closing the electronic auction;
- (c) when the phases in the auction, fixed in the invitation to take part in the auction, have been completed.

(13) When the contracting authorities or entities decide to close an electronic auction in accordance with sub-regulation (12)(c), possibly in combination with the arrangements laid down in sub-regulation (12)(b), the invitation to take part in the auction shall indicate the timetable for each phase of the auction.

(14) After closing an electronic auction, contracting authorities or entities shall award the contract in accordance with regulation 48 on the basis of the results of the electronic auction.

(15) Contracting authorities or entities may not have improper recourse to electronic auctions, nor may they use them in such a way as to prevent, restrict or distort competition or to change the subject-matter of the contract, as put for tender in the published contract notice and defined in the contract documents.

50. (1) If, for a given contract, tenders appear to be abnormally low in relation to the goods, works or services, the contracting authority or entity shall, before it rejects those tenders, request in writing details of the constituent elements of the tender

Abnormally low tenders.

which it considers relevant.

(2) Details requested in accordance with sub-regulation (1) may relate in particular to:

- (a) the economics of the construction method, manufacturing process or services provided;
- (b) the technical solutions chosen and, or any exceptionally favourable conditions available to the tenderer for the execution of the work or for the supply of the goods or services;
- (c) the originality of the work, supplies or services proposed by the tenderer;
- (d) compliance with the provisions relating to employment protection and working conditions in force at the place where the work, service or supply is to be performed;
- (e) the possibility of the tenderer obtaining State aid.

(3) The contracting authority or entity shall verify those constituent elements by consulting the tenderer, taking account of the evidence supplied.

(4) Where a contracting authority or entity establishes that a tender is abnormally low because the tenderer has obtained State aid, the tender can be rejected on that ground alone only after consultation with the tenderer where the latter is unable to prove, within a sufficient time-limit fixed by the contracting authority or entity, that the aid in question was granted legally. Where the contracting authority or entity rejects a tender in those circumstances, it shall inform the Commission thereof.

Part III

Rules applicable to subcontracting

Chapter 1

Subcontracts awarded by successful tenderers which are not contracting authorities or entities

Scope.

51. (1) Where, in accordance with regulation 22(3) and (4), this Part applies, the Director shall take the necessary measures to ensure that successful tenderers which are not contracting authorities or entities apply the rules set out in regulations 52 to 54 when they award subcontracts to third parties.

(2) For the purposes of sub-regulation (1), groups of undertakings which have been formed to obtain the contract, or undertakings related to them, shall not be considered third parties.

(3) The tenderer shall include the exhaustive list of such undertakings in the tender. That list shall be updated following any change in the relationship between the undertakings.

Principles.

52. The successful tenderer shall act transparently and treat all potential subcontractors in an equal and non-discriminatory way.

53. (1) When a successful tenderer which is not a contracting authority or entity awards a subcontract which has a value, excluding VAT, estimated not to be lower than the thresholds laid down in regulation 9, it shall make known its intention by the way of a notice.

Thresholds and rules on advertising.

(2) Subcontract notices shall contain the information referred to in Schedule IV and any other information deemed useful by the successful tenderer, if necessary with the approval of the contracting authority or entity.

(3) Subcontract notices shall be drawn up in accordance with the standard form adopted by the Commission in accordance with the advisory procedure referred to in Article 67(2) of Directive 2009/81/EC on the coordination of procedures for the award of certain works contracts, supply contracts and service contracts by contracting authorities or entities in the fields of defence and security, and amending Directives 2004/17/EC and 2004/18/EC.

(4) Subcontract notices shall be published in accordance with regulation 33(2) to (8).

(5) A subcontract notice shall not be required when a subcontract meets the conditions of regulation 29.

(6) Successful tenderers may publish, in accordance with regulation 33, subcontract notices for which advertising is not required.

(7) Contracting authorities or entities may also provide that the successful tenderer may fulfil the subcontracting requirement set out in regulation 22(3) or (4) to (9) by awarding subcontracts on the basis of a framework agreement concluded in accordance with the rules set out in regulations 52 and 54 and in sub-regulations (1) to (7) of this regulation.

(8) Subcontracts based on such a framework agreement shall be awarded within the limits of the terms laid down in the framework agreement. They may only be awarded to economic operators that were originally party to the framework agreement. When awarding contracts, the parties shall in all circumstances propose terms consistent with those of the framework agreement.

(9) The term of a framework agreement may not exceed seven years, except in exceptional circumstances determined by taking into account the expected service life of any delivered items, installations or systems, and the technical difficulties which a change of supplier may cause.

(10) Framework agreements may not be used improperly or in such a way as to prevent, restrict or distort competition.

(11) For the award of subcontracts which have a value, excluding VAT, estimated to be less than the thresholds laid down in regulation 9, successful tenderers apply the principles of the Treaty regarding transparency and competition.

(12) Regulation 10 shall apply to the calculation of the estimated value of subcontracts.

Criteria for qualitative selection of subcontractors.

54. (1) In the subcontract notice, the successful tenderer shall indicate the criteria for qualitative selection prescribed by the contracting authority or entity, as well as any other criteria it will apply for the qualitative selection of subcontractors. All these criteria shall be objective, non-discriminatory and consistent with the criteria applied by the contracting authority or entity for the selection of the tenderers for the main contract. The capabilities required must be directly related to the subject of the subcontract, and the levels of ability required must be commensurate with it.

(2) The successful tenderer shall not be required to subcontract if it proves to the satisfaction of the contracting authority or entity that none of the subcontractors participating in the competition or their proposed bids meet the criteria indicated in the subcontract notice and thereby would prevent the successful tenderer from fulfilling the requirements set out in the main contract.

Chapter II

Subcontracts awarded by successful tenderers which are contracting authorities or entities

Rules to be applied.

55. Where successful tenderers are contracting authorities or entities, they shall comply with the provisions on main contracts laid down in Parts I and II when they award subcontracts.

Part IV

Application of the Public Procurement Regulations

Review procedures. S.L. 601.03

56. Regulations, 4, 5, 6,7, 8, 9, 10, 11, 12, 14, 34 and Parts VII, VIII, IX, X, XI, XII, XIII and XIV of the Public Procurement Regulations shall, *mutatis mutandis*, apply to these regulations.

Part V

Statistical Obligations

Statistical obligations.

57. In order to permit assessment of the results of applying these regulations, the Director shall forward to the Commission a statistical report, prepared in accordance with regulation 58, addressing supply, services and works contracts awarded by contracting authorities or entities during the preceding year, by no later than 31 October of each year.

Contents of statistical report.

58. (1) The statistical report shall specify the number and value of contracts awarded. It shall address, separately, supply, services and works contracts.

(2) The data referred to in sub-regulation (1) shall be broken down by procedure used and shall specify, for each procedure, supplies, services and works identified by group of the CPV nomenclature.

(3) Where contracts have been concluded in accordance with the negotiated procedure without publication of a contract notice, the data referred to in sub-regulation (1) shall also be broken down by the circumstances referred to in regulation 29.

(4) The content of the statistical report shall be determined in accordance with the advisory procedure of the Commission as set

out in Article 67 of Directive 2009/81/EC on the coordination of procedures for the award of certain works contracts, supply contracts and service contracts by contracting authorities or entities in the fields of defence and security, and amending Directives 2004/17/EC and 2004/18/EC.

SCHEDULE I

Services referred to in regulations 3 and 16

Category No	Subject	CPV Reference No
1	Maintenance and repair services	50000000-5, from 50100000-6 to 50884000-5 (except from 50310000-1 to 50324200-4 and 50116510-9, 50190000-3, 50229000-6, 50243000-0) and from 51000000-9 to 51900000-1
2	Foreign military-aid-related services	75211300-1
3	Defence services, military defence services and civil defence services	75220000-4, 75221000-1, 75222000-8
4	Investigation and security services	From 79700000-1 to 79720000-7
5	Land transport services	60000000-8, from 60100000-9 to 60183000-4 (except 60160000-7, 60161000-4), and from 64120000-3 to 64121200-2
6	Air transport services of passengers and freight, except transport of mail	60400000-2, from 60410000-5 to 60424120-3 (except 60411000-2, 60421000-5), from 60440000-4 to 60445000-9 and 60500000-3
7	Transport of mail by land and by air	60160000-7, 60161000-4, 60411000-2, 60421000-5
8	Rail transport services	From 60200000-0 to 60220000-6
9	Water transport services	From 60600000-4 to 60653000-0, and from 63727000-1 to 63727200-3
10	Supporting and auxiliary transport services	From 63100000-0 to 63111000-0, from 63120000-6 to 63121100-4, 63122000-0, 63512000-1 and from 63520000-0 to 6370000-6
11	Telecommunication services	From 64200000-8 to 64228200-2, 72318000-7, and from 72700000-7 to 72720000-3
12	Financial services: Insurance services	From 66500000-5 to 66720000-3
13	Computer and related services	From 50310000-1 to 50324200-4, from 72000000-5 to 72920000-5 (except 72318000-7 and from 72700000-7 to 72720000-3), 79342410-4, 9342410-4
14	Research and development services (except research and development services referred to in regulation 14(j)) and evaluation tests	From 73000000-2 to 73436000-7
15	Accounting, auditing and bookkeeping services	From 79210000-9 to 79212500-8

Category No	Subject	CPV Reference No
16	Management consulting services (except arbitration and conciliation services) and related services	From 73200000-4 to 73220000-0, from 79400000-8 to 79421200-3 and 79342000-3, 79342100-4, 79342300-6, 79342320-2, 79342321-9, 79910000-6, 79991000-7 and 98362000-8
17	Architectural services; engineering services and integrated engineering services; urban planning and landscape engineering services; related scientific and technical consulting services; technical testing and analysis services	From 71000000-8 to 71900000-7 (except 71550000-8) and 79994000-8
18	Building-cleaning services and property management services	From 70300000-4 to 70340000-6 and from 90900000-6 to 90924000-0
19	Sewage and refuse disposal services; sanitation and similar services	From 90400000-1 to 90743200-9 (except 90712200-3), from 90910000-9 to 90920000-2 and 50190000-3, 50229000-6, 50243000-0
20	Training and simulation services in the fields of defence and security	80330000-6, 80600000-0, 80610000-3, 80620000-6, 80630000-9, 80640000-2, 80650000-5, 80660000-8

SCHEDULE II

Services referred to in regulations 3 and 17

Category No	Subject	CPV Reference No
21	Hotel and restaurant services	From 55100000-1 to 55524000-9 and from 98340000-8 to 98341100-6
22	Supporting and auxiliary transport services	From 63000000-9 to 63734000-3 (except 63711200-8, 63712700-0, 63712710-3), from 63727000-1 to 63727200-3 and 98361000-1
23	Legal services	From 79100000-5 to 79140000-7
24	Personnel placement and supply services (except employment contracts)	From 79600000-0 to 79635000-4 (except 79611000-0, 79632000-3, 79633000-0) and from 98500000-8 to 98514000-9
25	Health and social services	79611000-0 and from 85000000-9 to 85323000-9 (except 85321000-5, 85322000-2)

Category No	Subject	CPV Reference No
26	Other services	

SCHEDULE III

Information to be included in the notices referred to in regulation 33

NOTICE OF PUBLICATION OF A PRIOR INFORMATION NOTICE ON A BUYER PROFILE

1. Country of the contracting authority and, or entity
2. Name of the contracting authority and, or entity
3. Internet address of the 'buyer profile' (URL)
4. CPV nomenclature reference no(s)

PRIOR INFORMATION NOTICE

1. The name, address, fax number and e-mail address of the contracting authority and, or entity and, if different, of the service from which additional information may be obtained and, in the case of services and works contracts, of the departments, e.g. the relevant governmental Internet site, from which information can be obtained concerning the general regulatory framework for taxes, environmental protection, employment protection and working conditions applicable in the place where the contract is to be performed.

2. Where appropriate, indication whether the contract is restricted to sheltered workshops, or whether its execution is restricted to the framework of protected job programmes.

3. In the case of works contracts: the nature and extent of the works and the place of execution; if the work is to be subdivided into several lots, the essential characteristics of those lots by reference to the work; if available, an estimate of the range of the cost of the proposed works; CPV nomenclature reference no(s).

In the case of supply contracts: the nature and quantity or value of the products to be supplied, CPV nomenclature reference no(s).

In the case of services contracts: the total value of the proposed purchases in each of the service categories, CPV nomenclature reference no(s).

4. Estimated date for initiating the award procedures in respect of the contract or contracts, in the case of service contracts by category.

5. Where appropriate, indicate whether a framework agreement is involved.

6. Where appropriate, other information.

7. Date of dispatch of the notice or of dispatch of the notice of publication of the prior information notice on the buyer profile.

CONTRACT NOTICES

Restricted procedures, negotiated procedures with publication of a contract notice and competitive dialogues:

1. Name, address, telephone and fax number, e-mail address of the contracting authority and, or entity.

2. Where appropriate, indication whether the contract is restricted to sheltered workshops, or whether its execution is restricted to the framework of protected job programmes.
3.
 - (a) The award procedure chosen;
 - (b) Where appropriate, the reasons for use of the accelerated procedure (in restricted and negotiated procedures);
 - (c) Where appropriate, indicate whether a framework agreement is involved;
 - (d) Where appropriate, the holding of an electronic auction.
4. Form of the contract.
5. Place of execution and, or performance of the works, for delivery of products or of the provision of services.
6.
 - (a) Works contracts:
 - nature and extent of the works and general nature of the work. Indication in particular of options concerning supplementary works, and, if known, the provisional timetable for recourse to these options as well as the number of possible renewals, if any. If the work or the contract is subdivided into several lots, the size of the different lots; CPV nomenclature reference no(s),
 - information concerning the purpose of the work or the contract where the latter also involves the drawing up of projects,
 - in the case of a framework agreement, indication also of the planned duration of the framework agreement, the estimated total value of the works for the entire duration of the framework agreement and, as far as possible, the value and the frequency of the contracts to be awarded.
 - (b) Supply contracts:
 - nature of the products to be supplied, indicating in particular whether tenders are requested with a view to purchase, lease rental, hire or hire purchase or a combination of these, CPV nomenclature reference no(s). Quantity of products to be supplied, indicating in particular options concerning supplementary purchases and, if known, the provisional timetable for recourse to these options as well as the number of renewals, if any; CPV nomenclature reference no(s),
 - in the case of regular or renewable contracts during the course of a given period, indication also, if known, of the timetable for subsequent contracts for intended purchases of supplies,
 - in the case of a framework agreement, indication also of the planned duration of the framework agreement, the estimated total value of the supplies for the entire duration of the framework agreement and, as far as possible, the value and the frequency of the contracts to be awarded.
 - (c) Service contracts:
 - category and description of the service. CPV nomenclature reference no(s). Quantity of services to be provided. Indication in particular of options concerning supplementary purchases and, if known, the provisional timetable for recourse to these options as

well as the number of renewals, if any. In the case of renewable contracts over a given period, an estimate of the time frame, if known, for subsequent contracts for intended purchases of services.

In the case of a framework agreement, indication also of the planned duration of the framework agreement, the estimated total value of the services for the entire duration of the framework agreement and, as far as possible, the value and the frequency of the contracts to be awarded,

- indication of whether the execution of the service is reserved by law, regulation or administrative provision to a particular profession,
- reference to the law, regulation or administrative provision,
- indication of whether legal persons should indicate the names and professional qualifications of the staff to be responsible for the execution of the service.

7. If the contracts are subdivided into lots, indication of the possibility for economic operators of tendering for one, for several and, or for all the lots.

8. Admission or prohibition of variants.

9. Where applicable, indication of the percentage of the contract's global value which is required to be subcontracted to third parties through a tendering procedure (regulation 22(4)).

10. Where applicable, selection criteria regarding the personal situation of subcontractors that may lead to their exclusion, and required information proving that they do not fall within the cases justifying exclusion. Information and any necessary formalities for assessment of the minimum economic and technical capacities required of the subcontractors. Minimum level(s) of capacities possibly required.

11. Time-limit for completion of works or supplies or services or duration of the works or supply or services contract. Where possible, time-limit by which works will begin or time-limit by which delivery of supplies or services will begin.

12. Where applicable, particular conditions to which the performance of the contract is subject.

13. (a) The final date for the receipt of requests to participate.

(b) address to which they must be sent.

(c) the language or languages in which they must be drawn up.

14. Where applicable, any deposits and guarantees required.

15. Main terms concerning financing and payment and, or references to the texts in which these are contained.

16. Where applicable, the legal form to be taken by the grouping of economic operators to which the contract is to be awarded.

17. Selection criteria regarding the personal situation of economic operators that may lead to their exclusion, and information required proving that they do not fall within the cases justifying exclusion. Selection criteria, information and any necessary formalities for assessment of the minimum economic and technical standards required of the economic operator. Minimum level(s) of standards possibly required.

18. In the case of framework agreements: the number and, where appropriate, proposed maximum number of economic operators which will be members of it and the duration of the framework agreement.

19. In the case of a competitive dialogue or a negotiated procedure with the publication of a contract notice, indication, if appropriate, of recourse to a staged procedure in order gradually to reduce the number of solutions to be discussed or tenders to be negotiated.

20. In the case of a restricted procedure, a negotiated procedure or a competitive dialogue, when recourse is had to the option of reducing the number of candidates to be invited to submit tenders, to engage in dialogue or to negotiate: minimum and, if appropriate, proposed maximum number of candidates and objective criteria to be used to choose that number of candidates.

21. Criteria referred to in regulation 47 to be used for award of the contract: 'lowest price' or 'most economically advantageous tender'. Criteria representing the most economically advantageous tender as well as their weighting or the criteria in descending order of importance shall be mentioned where they do not appear in the specifications or, in the event of a competitive dialogue, in the descriptive document.

22. Where appropriate, date(s) of publication of the prior information notice in accordance with the technical specifications of publication indicated in Schedule VI or statement that no such publication was made.

23. Date of dispatch of the notice.

CONTRACT AWARD NOTICE

1. Name and address of the contracting authority and, or entity.

2. Award procedure chosen. In the case of a negotiated procedure without prior publication of a contract notice (regulation 29), justification.

3. Works contracts: nature and extent of the services.

Supply contracts: nature and quantity of products supplied, where appropriate, by the supplier; CPV nomenclature reference no(s).

Service contracts: category and description of the service; CPV nomenclature reference no(s); quantity of services purchased.

4. Date of contract award.

5. Contract award criteria.

6. Number of tenders received.

7. Name and address of the successful economic operators.

8. Price or range of prices (minimum/maximum) paid.

9. Value of the tender (tenders) retained or the highest tender and lowest tender taken into consideration for the contract award.

10. Where appropriate, proportion of contract to be subcontracted to third parties and its value.

11. If appropriate, the reasons for the framework agreement lasting more than seven years.

12. Date of publication of the tender notice in accordance with the technical specifications for publication in Schedule IV.

13. Date of dispatch of this notice.

SCHEDULE IV

Information to be included in the subcontract notices referred to in regulation 53

1. The name, address, fax number and e-mail address of the successful tenderer and, if different, of the service from which additional information may be obtained.
2.
 - (a) Place of execution/performance of the works, for delivery of products or of the provision of services;
 - (b) nature, quantity and extent of the works and general nature of the work; CPV nomenclature reference no(s);
 - (c) nature of the products to be supplied, indicating whether tenders are requested with a view to purchase, lease rental, hire or hire purchase or a combination of these, CPV nomenclature reference no(s);
 - (d) category and description of service; CPV nomenclature reference no(s).
3. Any time-limit for completion imposed.
4. Name and address of the body from which the specifications and the additional documents may be requested.
5.
 - (a) Time-limit for the receipt of applications to participate and, or the receipt of tenders;
 - (b) address to which they must be sent;
 - (c) language(s) in which they must be written.
6. Any deposits or guarantees required.
7. Objective criteria which will be applied for selection of the subcontractors related to their personal situation or the assessment of their bid.
8. Any other information.
9. Date of dispatch of the notice.

SCHEDULE V

FEATURES CONCERNING PUBLICATION

1. Publication of notices
 - (a) The notices referred to in regulations 31 and 53 must be sent by the contracting authorities and, or entities or successful tenderers to the Publications Office of the European Union in the format referred to in regulation 33. The prior information notices referred to in regulation 31(1)(a), published on a buyer profile as described in point 2, must also use that format, as must the notice of such publication.

The notices referred to in regulations 31 and 53 must be published by the Office for Publications Office of the European Union or by the contracting authorities or entities in the case of a prior information notice published on a buyer profile in accordance with regulation 31(1)(a).

In addition, contracting authorities or entities may publish this information on the Internet on a 'buyer profile' as referred to in point 2;

- (b) the Office for Publications Office of the European Union shall give the contracting authority or entity the confirmation of publication referred to in regulation 33(12).

2. Publication of supplementary information

The buyer profile may include prior information notices as referred to in regulation 31(1)(a) information on ongoing invitations to tender, scheduled purchases, contracts concluded, procedures cancelled and any useful general information, such as a contact point, a telephone and fax number, a postal address and an e-mail address.

3. Format and procedures for sending notices electronically

The format and procedure for sending notices electronically are accessible at the Internet address 'http://simap.europa.eu'.

SCHEDULE VI
REGISTERS

PART A

Works contracts

The professional registers and corresponding declarations and certificates for each Member State are:

- in Belgium the 'Registre du Commerce'/'Handelsregister',
- in Bulgaria, the 'Търговски регистър',
- in the Czech Republic, the 'obchodní rejstřík',
- in Denmark, the 'Erhvervs- og Selskabsstyrelsen',
- in Germany, the 'Handelsregister' and the 'Handwerksrolle',
- in Estonia, the 'Registrite ja Infosüsteemide Keskus',
- in Ireland, the contractor may be requested to provide a certificate from the Registrar of Companies or the Registrar of Friendly Societies or, if he is not so certified, a certificate stating that the person concerned has declared on oath that he is engaged in the profession in question in the country in which he is established, in a specific place under a given business name,
- in Greece, the 'Μητρώο Εργοληπτικών Επιχειρήσεων - ΜΕΕΠ' of the Ministry for Environment, Town and Country Planning and Public Works (Υ.Π.Ε.ΧΩ.Δ.Ε),
- in Spain, the 'Registro Oficial de Licitadores y Empresas Clasificadas del Estado',
- in France, the 'Registre du commerce et des sociétés' and the 'Répertoire des métiers',
- in Italy, the 'Registro della Camera di commercio, industria, agricoltura e artigianato',
- in Cyprus, the contractor may be requested to provide a certificate from the 'Council for the Registration and Audit of Civil Engineering and Building Contractors (Συμβούλιο Εγγραφής και Ελέγχου Εργοληπτών

- Οικοδομικών και Τεχνικών Έργων) in accordance with the Registration and Audit of Civil Engineering and Building Contractors Law,
- in Latvia, the ‘Uzņēmumu reģistrs’,
 - in Lithuania, the ‘Juridinių asmenų registras’,
 - in Luxembourg, the ‘Registre aux firmes’ and the ‘Rôle de la Chambre des métiers’,
 - in Hungary, the ‘Cégnyilvántartás’, the ‘egyéni vállalkozók jegyzői nyilvántartása’,
 - in Malta, the contractor obtains his ‘numru ta’ registrazzjoni tat-Taxxa tal-Valur Miżjud (VAT) u n-numru tal-liċenza ta’ kummerċ’, and, in the case of a partnership or company, the relevant registration number as issued by the Malta Financial Services Authority,
 - in the Netherlands, the ‘Handelsregister’,
 - in Austria, the ‘Firmenbuch’, the ‘Gewerberegister’, the ‘Mitgliederverzeichnisse der Landeskammern’,
 - in Poland, the ‘Krajowy Rejestr Sądowy’,
 - in Portugal, the ‘Instituto da Construção e do Imobiliário’ (INCI),
 - in Romania, the ‘Registrul Comerțului’,
 - in Slovenia, the ‘Sodni register’ and the ‘obrtni register’,
 - in Slovakia, the ‘Obchodný register’,
 - in Finland, the ‘Kaupparekisteri’/‘Handelsregistret’,
 - in Sweden, the ‘aktiebolags-, handels- eller föreningsregistren’,
 - in the United Kingdom, the contractor may be requested to provide a certificate from the Registrar of Companies or, if he is not so certified, a certificate stating that the person concerned has declared on oath that he is engaged in the profession in question in the country in which he is established in a specific place under a given business name.

PART B

Supply contracts

The relevant professional and trade registers and declarations and certificates are:

- in Belgium the ‘Registre du Commerce’/‘Handelsregister’,
- in Bulgaria, the ‘Търговски регистър’,
- in the Czech Republic, the ‘obchodní rejstřík’,
- in Denmark, the ‘Erhvervs- og Selskabsstyrelsen’,
- in Germany, the ‘Handelsregister’ and the ‘Handwerksrolle’,
- in Estonia, the ‘Registrite ja Infosüsteemide Keskus’,
- in Greece, the ‘Βιοτεχνικό ή Εμπορικό ή Βιομηχανικό Επιμελητήριο’ and the ‘Μητρώο Κατασκευαστών Αμυντικού Υλικού’,
- in Spain, the ‘Registro Mercantil’ or, in the case of non-registered individuals, a certificate stating that the person concerned has declared on oath that he is engaged in the profession in question,
- in France, the ‘Registre du commerce et des sociétés’ and the ‘Répertoire des métiers’,

- in Ireland, the supplier may be requested to provide a certificate from the Registrar of Companies or the Registrar of Friendly Societies that he is certified as incorporated or registered or, if he is not so certified, a certificate stating that the person concerned has declared on oath that he is engaged in the profession in question in the country in which he is established, in a specific place under a given business name,
- in Italy, the 'Registro della Camera di commercio, industria, agricoltura e artigianato', and the 'Registro delle commissioni provinciali per l'artigianato',
- in Cyprus, the supplier may be requested to provide a certificate from the 'Registrar of Companies and Official Receiver' (Εφορος Εταιρειών και Επίσημος Παραλήπτης) or, if this is not the case, a certificate stating that the person concerned has declared on oath that he is engaged in the profession in question in the country in which he is established, in a specific place and under a given business name,
- in Latvia, the 'Uzņēmumu reģistrs',
- in Lithuania, the 'Juridinių asmenų registras',
- in Luxembourg, the 'Registre aux firmes' and the 'Rôle de la Chambre des métiers',
- in Hungary, the 'Cégnyilvántartás', the 'egyéni vállalkozók jegyzői nyilvántartása',
- in Malta: the supplier obtains his 'numru ta' reġistrazzjoni tat-Taxxa tal-Valur Miżjud (VAT) u n-numru tal-liċenza ta' kummerċ', and, in the case of a partnership or company, the relevant registration number as issued by the Malta Financial Services Authority,
- in the Netherlands, the 'Handelsregister',
- in Austria, the 'Firmenbuch', the 'Gewerberegister', the 'Mitgliederverzeichnisse der Landeskammern',
- in Poland, the 'Krajowy Rejestr Sądowy',
- in Portugal, the 'Registro Nacional das Pessoas Colectivas',
- in Romania, the 'Registrul Comerțului',
- in Slovenia, the 'Sodni register' and the 'obrtni register',
- in Slovakia, the 'Obchodný register',
- in Finland, the 'Kaupparekisteri'/'Handelsregistret',
- in Sweden, the 'aktiebolags-, handels- eller föreningsregistren',
- in the United Kingdom, the supplier may be requested to provide a certificate from the Registrar of Companies stating that he is certified as incorporated or registered or, if he is not so certified, a certificate stating that the person concerned has declared on oath that he is engaged in the profession in a specific place under a given business name.

PART C

Service contracts

The relevant professional and trade registers and declarations and certificates are:

- in Belgium, the 'Registre du commerce/Handelsregister' and the 'Ordres professionnels/Beroepsorden',

- in Bulgaria, the ‘Търговски регистър’,
- in the Czech Republic, the ‘obchodní rejstřík’,
- in Denmark, the ‘Erhvervs- og Selskabsstyrelsen’,
- in Germany, the ‘Handelsregister’, the ‘Handwerksrolle’, the ‘Vereinsregister’, the ‘Partnerschaftsregister’ and the ‘Mitgliedsverzeichnisse der Berufskammern der Länder’,
- in Estonia, the ‘Registrite ja Infosüsteemide Keskus’,
- in Ireland, the service provider may be requested to provide a certificate from the Registrar of Companies or the Registrar of Friendly Societies or, if he is not so certified, a certificate stating that the person concerned has declared on oath that he is engaged in the profession in question in the country in which he is established, in a specific place under a given business name,
- in Greece, the service provider may be asked to provide a declaration on the exercise of the profession concerned made on oath before a notary; in the cases provided for by existing national legislation, for the provision of research services as mentioned in Schedule I, the professional register ‘Μητρώο Μελετητών’ and the ‘Μητρώο Γραφείων Μελετών’,
- in Spain, the ‘Registro Oficial de Licitadores y Empresas Clasificadas del Estado’,
- in France, the ‘Registre du commerce et des sociétés’ and the ‘Répertoire des métiers’,
- in Italy, the ‘Registro della Camera di commercio, industria, agricoltura e artigianato’, the ‘Registro delle commissioni provinciali per l’artigianato’ or the ‘Consiglio nazionale degli ordini professionali’,
- in Cyprus, the service provider may be requested to provide a certificate from the ‘Registrar of Companies and Official Receiver’ (Εφορος Εταιρειών και Επίσημος Παραλήπτης) or, if this is not the case, a certificate stating that the person concerned has declared on oath that he is engaged in the profession in question in the country in which he is established, in a specific place and under a given business name,
- in Latvia, the ‘Uzņēmumu reģistrs’,
- in Lithuania, the ‘Juridinių asmenų registras’,
- in Luxembourg, the ‘Registre aux firmes’ and the ‘Rôle de la Chambre des métiers’,
- in Hungary, the ‘Cégnyilvántartás’, the ‘egyéni vállalkozók jegyzői nyilvántartása’, some ‘szakmai kamarák nyilvántartása’ or, in the case of some activities, a certificate stating that the person concerned is authorised to be engaged in the commercial activity or profession in question,
- in Malta: the service provider can obtain his ‘numru ta’ registrazzjoni tat-Taxxa tal-Valur Miżjud (VAT) u n-numru tal-liċenza ta’ kummerċ’, and, in the case of a partnership or company, the relevant registration number as issued by the Malta Financial Services Authority,
- in the Netherlands, the ‘Handelsregister’,
- in Austria, the ‘Firmenbuch’, the ‘Gewerberegister’, the ‘Mitgliederverzeichnisse der Landeskammern’,

- in Poland, the ‘Krajowy Rejestr Sądowy’,

SCHEDULE VII

Requirements relating to devices for the electronic receipt of requests to participate and tenders

Devices for the electronic receipt of requests for participation and tenders must at least guarantee, through appropriate technical means and procedures, that:

- (a) electronic signatures relating to requests to participate and tenders comply with national provisions adopted pursuant to Directive 1999/93/EC;
 - (b) the exact time and date of the receipt of requests to participate and tenders can be determined precisely;
 - (c) it may be reasonably ensured that, before the time-limits laid down, no-one can have access to data transmitted under these requirements;
 - (d) if that access prohibition is infringed, it may be reasonably ensured that the infringement is clearly detectable;
 - (e) only authorised persons may set or change the dates for opening data received;
 - (f) during the various stages of the contract award procedure, access to all data submitted, or to part thereof, must be possible only through simultaneous action by authorised persons;
 - (g) simultaneous action by authorised persons must give access to data transmitted only after the prescribed date;
 - (h) data received and opened in accordance with these requirements must remain accessible only to persons authorised to acquaint themselves therewith.
-
